

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of the EUT housing. On the left is a circular black plastic housing with a white spiral ribbon cable and a green PCB mounted inside. On the right is a separate circular black plastic component, likely the back cover, showing internal mounting points. Two metal rulers are placed for scale: a vertical one on the left and a horizontal one at the bottom. The background is a blue textured surface.
Solder Board-Component View 1	 A close-up photograph of the green PCB and the white spiral ribbon cable. The PCB has various electronic components and a red connector. The ribbon cable is coiled. Two metal rulers are placed for scale: a vertical one on the left and a horizontal one at the bottom. The background is a blue textured surface.

Solder Board-Component View 2	 A photograph showing the solder board component from a top-down perspective. The component consists of a circular silver-colored metal disc with a central hole, connected by two thin wires to a small green printed circuit board (PCB). The PCB has a USB connector and a red component. The assembly is placed on a blue textured surface next to a metal ruler for scale. The ruler shows centimeters and millimeters.
Antenna View	 A photograph showing the antenna component from a top-down perspective. The component features a circular coil antenna with a white and black spiral pattern, connected by two thin wires to a small green PCB. The PCB has a USB connector and a red component. A red box highlights the coil antenna, and a red line points to it from the label "Coil Antenna". The assembly is placed on a blue textured surface next to a metal ruler for scale. The ruler shows centimeters and millimeters.
