

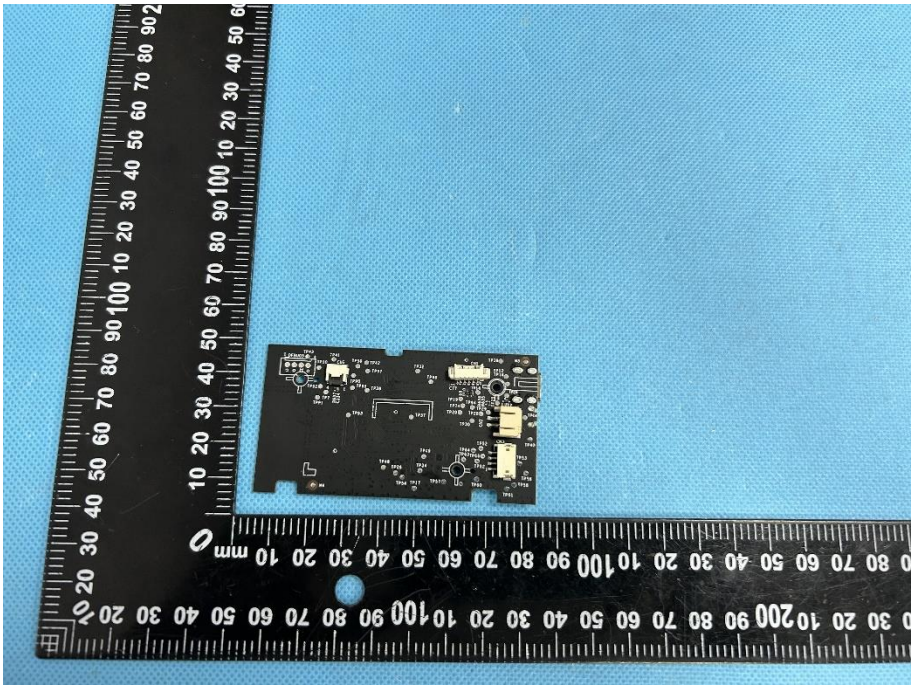

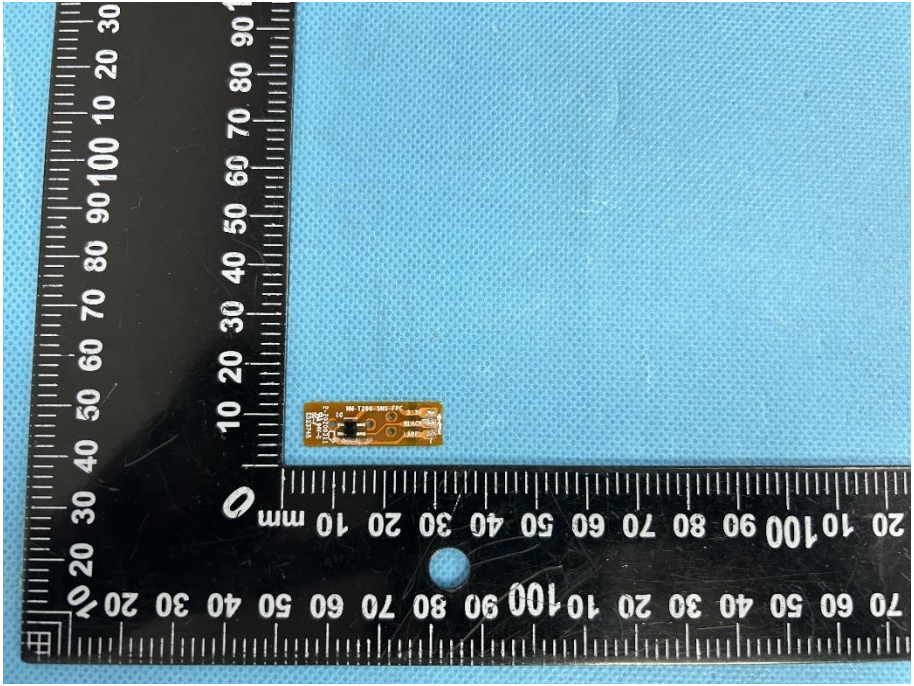

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

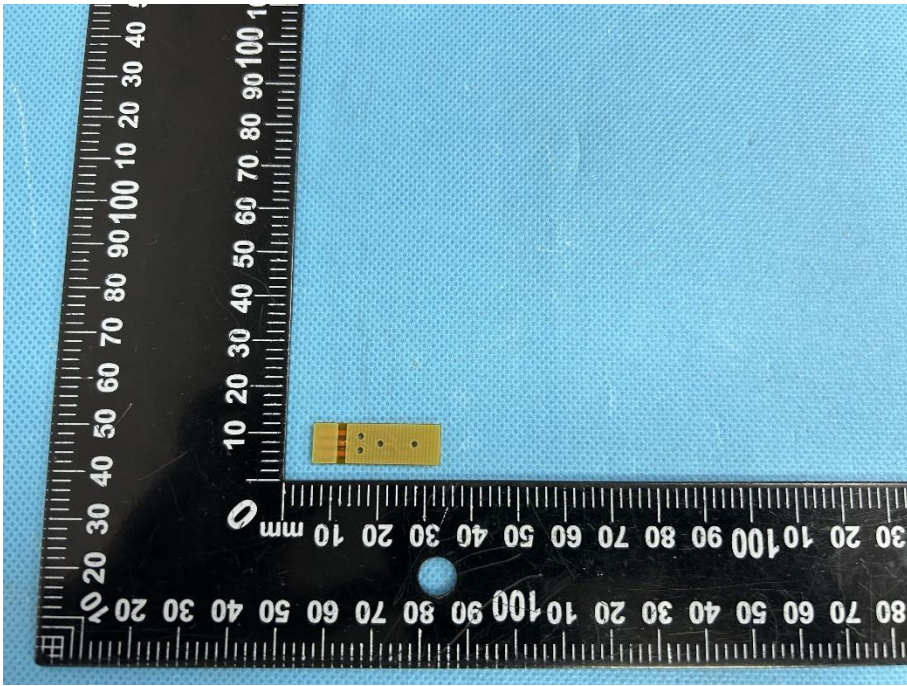

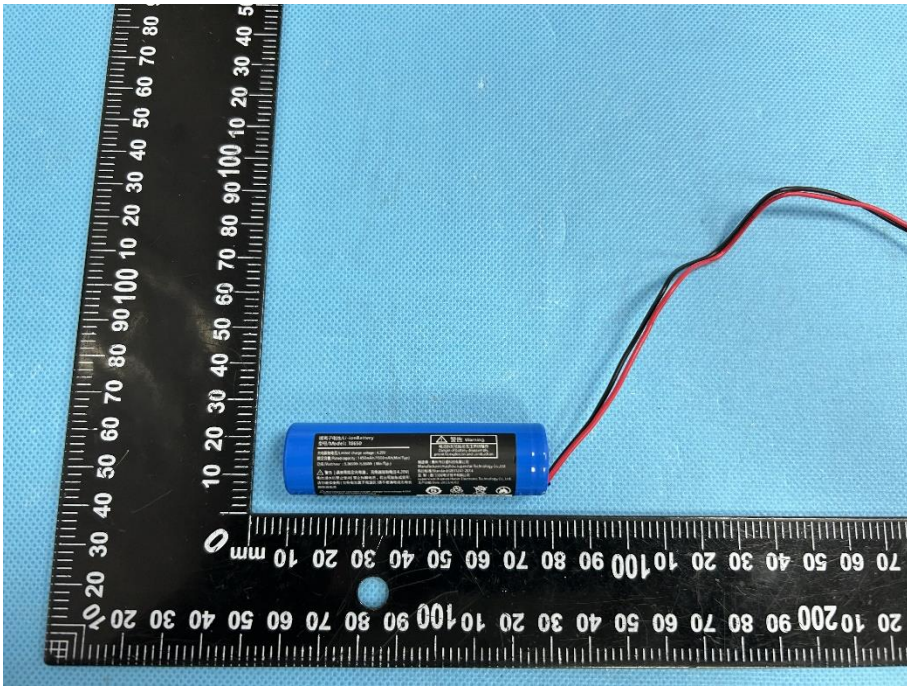

**EUT Housing and Board View 1**

**Solder Board-Component View 1**

<p><b>Solder Board-Component View 2</b></p>	 <p>A photograph of a small, rectangular black printed circuit board (PCB) component. The board is populated with various electronic components, including several integrated circuits (chips), resistors, and capacitors. The board is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler shows measurements in millimeters, with the horizontal edge ranging from 0 to 100 mm and the vertical edge from 0 to 100 mm.</p>
<p><b>Solder Board-Component View 3</b></p>	 <p>A photograph of a small, rectangular gold-colored PCB component. The board is populated with several surface-mount components, including what appears to be a microcontroller or logic chip, and several resistors. The board is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler shows measurements in millimeters, with the horizontal edge ranging from 0 to 100 mm and the vertical edge from 0 to 100 mm.</p>

<p><b>Solder Board-Component View 4</b></p>	 A photograph showing a small, rectangular, yellowish component with two circular solder points. The component is placed on a blue textured surface next to a black L-shaped ruler. The ruler has white markings in millimeters and centimeters. The component is positioned near the 10 mm mark on the vertical ruler and the 30 mm mark on the horizontal ruler.
<p><b>Solder Board-Component View 5</b></p>	 A photograph showing a blue cylindrical component with two wires (one red, one black) extending from it. The component is placed on a blue textured surface next to a black L-shaped ruler. The ruler has white markings in millimeters and centimeters. The component is positioned near the 10 mm mark on the vertical ruler and the 30 mm mark on the horizontal ruler.
