

<p>Solder Board-Component View 4</p>	 A photograph of a solder board component, which is a small, dark, rectangular piece with a gold-colored flex cable attached to one side. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 40 mm and its width approximately 15 mm.
<p>Solder Board-Component View 5</p>	 A photograph of a solder board component, which is a small, dark, rectangular piece with a gold-colored flex cable attached to one side. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 15 mm and its width approximately 10 mm.

<p>Solder Board-Component View 6</p>	 A photograph showing a small, square, black component mounted on a blue textured surface. The component is positioned next to a black L-shaped ruler with white markings in millimeters. The component's markings include 'BAW-0' and '2333'. The ruler shows the component is approximately 10mm wide and 10mm high.
<p>Solder Board-Component View 7</p>	 A photograph showing the same component from a different angle. The component is positioned next to the same black L-shaped ruler. The component's markings include 'BAW-0', '2333', and '02100-LED'. The ruler shows the component is approximately 10mm wide and 10mm high.

<p>Solder Board-Component View 8</p>	 A photograph showing a small, square, gold-colored component on a blue textured surface. A black L-shaped ruler is placed next to it for scale. The ruler has markings in millimeters, with the horizontal part showing 0 to 100 mm and the vertical part showing 0 to 90 mm. The component is positioned at approximately 10 mm on the vertical ruler and 30 mm on the horizontal ruler.
<p>Solder Board-Component View 9</p>	 A photograph showing a small, rectangular, silver-colored component on a blue textured surface. A black L-shaped ruler is placed next to it for scale. The ruler has markings in millimeters, with the horizontal part showing 0 to 100 mm and the vertical part showing 0 to 80 mm. The component is positioned at approximately 10 mm on the vertical ruler and 30 mm on the horizontal ruler. The component has some markings on it, including "WALTEK" and "CP2102-1550".

<p>Solder Board-Component View 10</p>	 <p>A close-up photograph of a small, rectangular solder board component. The component is positioned on a blue textured surface. A black ruler with white markings is placed below the component for scale. The ruler shows measurements in millimeters, with the component's length being approximately 30 mm. The component has a gold-colored connector on one end and a small blue component on the other.</p>
<p>Antenna View 1</p>	 <p>A photograph showing the antenna view of the board. The board is placed on a blue textured surface next to a black ruler for scale. A red box labeled "BT Ant." is positioned above the board, with a red line pointing to a specific component on the board. The ruler shows measurements in millimeters, with the board's width being approximately 100 mm.</p>
