

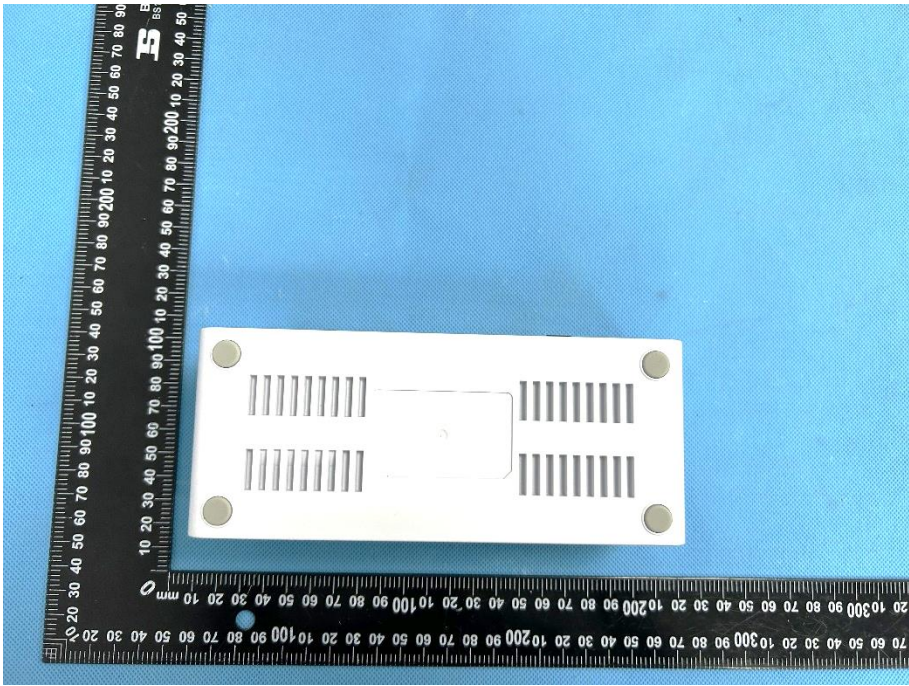

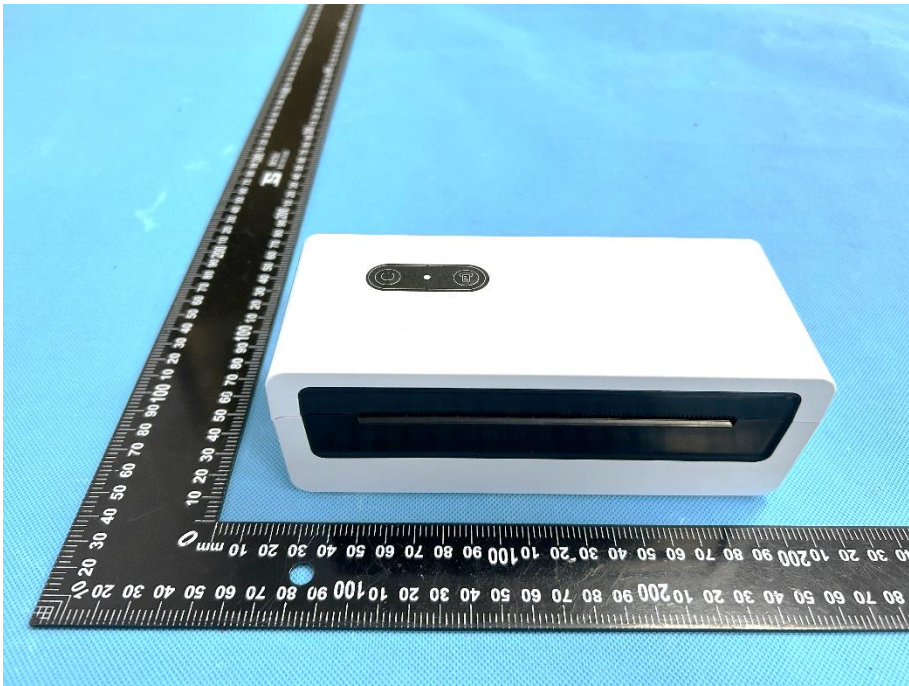

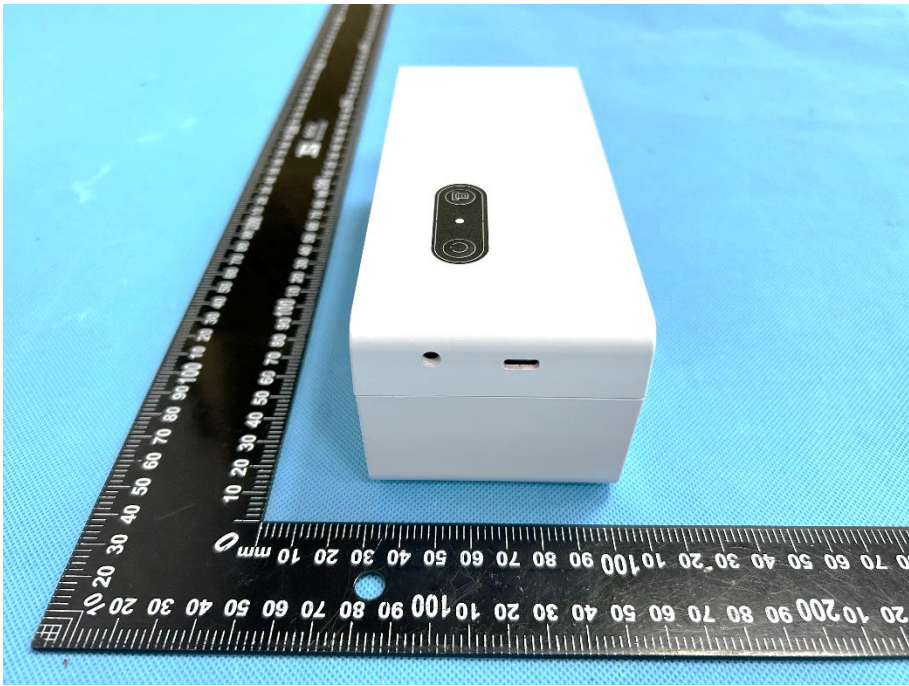

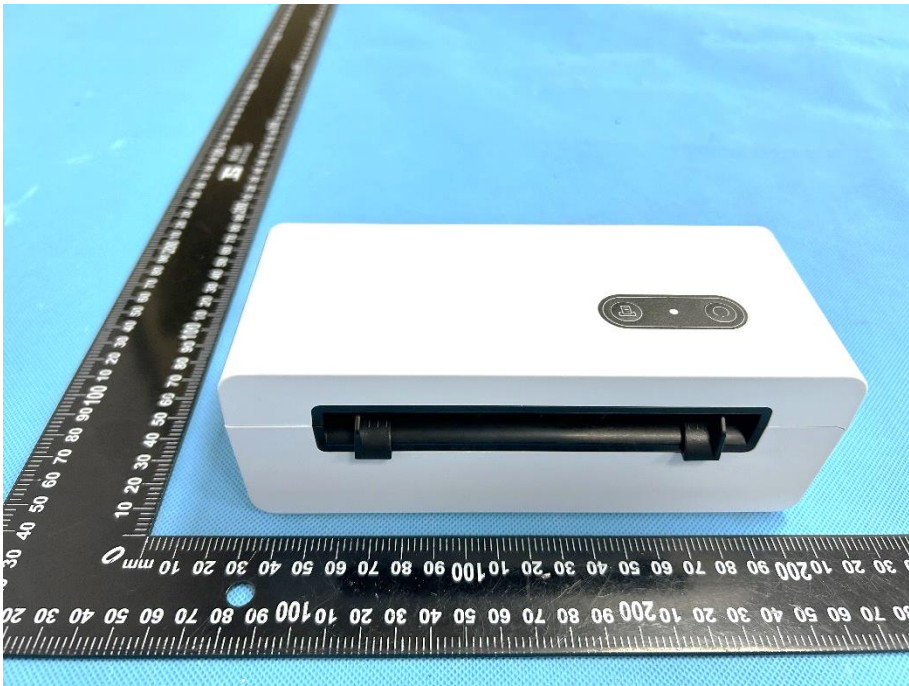

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

<p>EUT View 1</p>	 A photograph showing the external components of the EUT. A black power supply unit is connected to a black power cord with a standard AC plug. A white power cord is also visible. A black cable with a connector is plugged into the front of a white rectangular device. A black ruler is placed vertically to the left of the device for scale.
<p>EUT View 2</p>	 A close-up photograph of the white rectangular device. The device has a black oval-shaped port on its front face. A black ruler is placed vertically to the left of the device for scale.

<p>EUT View 3</p>	 A photograph showing the bottom view of a white rectangular electronic unit. The unit features four circular mounting holes at the corners and two sets of horizontal ventilation grilles on either side of a central rectangular cutout. A black ruler with white markings is placed to the left of the unit for scale, showing measurements in millimeters and centimeters. The background is a light blue textured surface.
<p>EUT View 4</p>	 A photograph showing the front view of the same white rectangular electronic unit. It has a dark, recessed slot on the front face and a small circular feature on the top surface. A black ruler with white markings is placed to the left of the unit for scale. The background is a light blue textured surface.

<p>EUT View 5</p>	 A photograph of a white, rectangular electronic unit (EUT) from a top-down perspective. The device has a control panel on its top surface featuring a power button and a small indicator light. It is placed on a blue textured surface next to a black ruler with white markings for scale. The ruler shows the device is approximately 100 mm long and 30 mm wide.
<p>EUT View 6</p>	 A photograph of the same white, rectangular electronic unit from a front-facing perspective. The device features a large, black, rectangular port or connector on its front face. It is placed on a blue textured surface next to a black ruler with white markings for scale. The ruler shows the device is approximately 100 mm long and 30 mm wide.
