

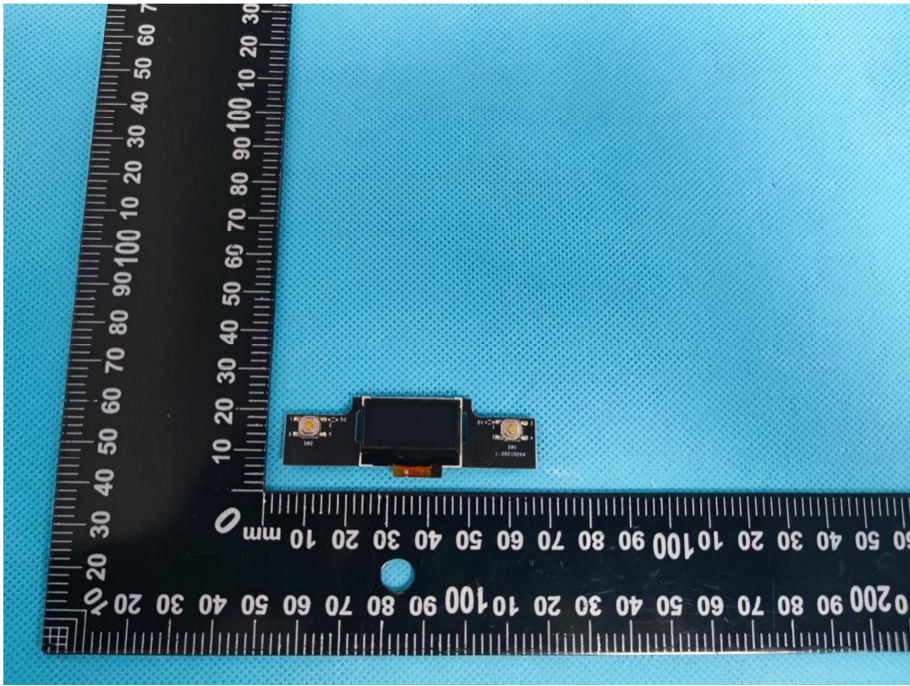

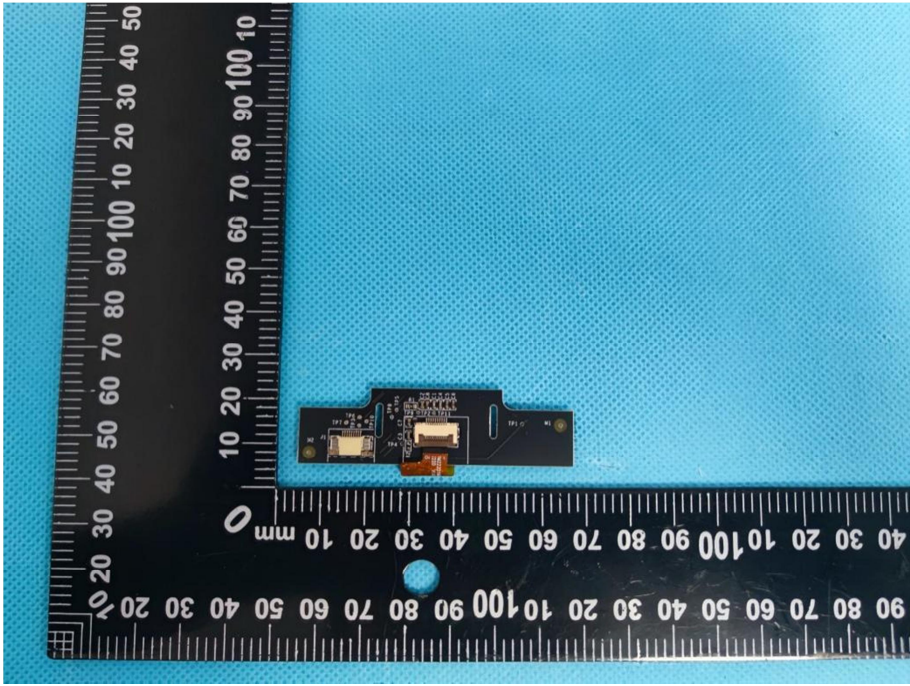

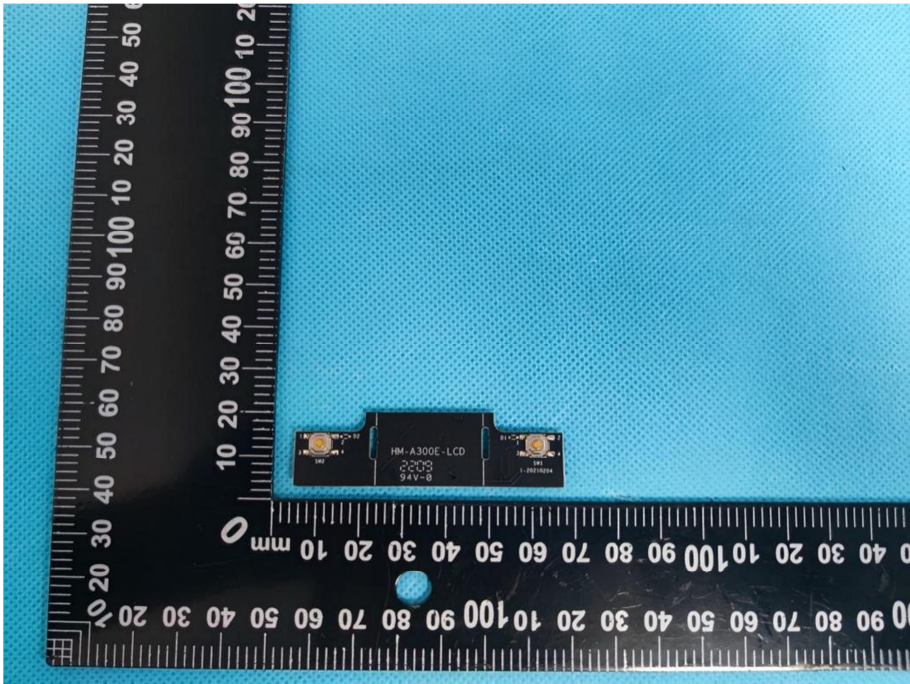

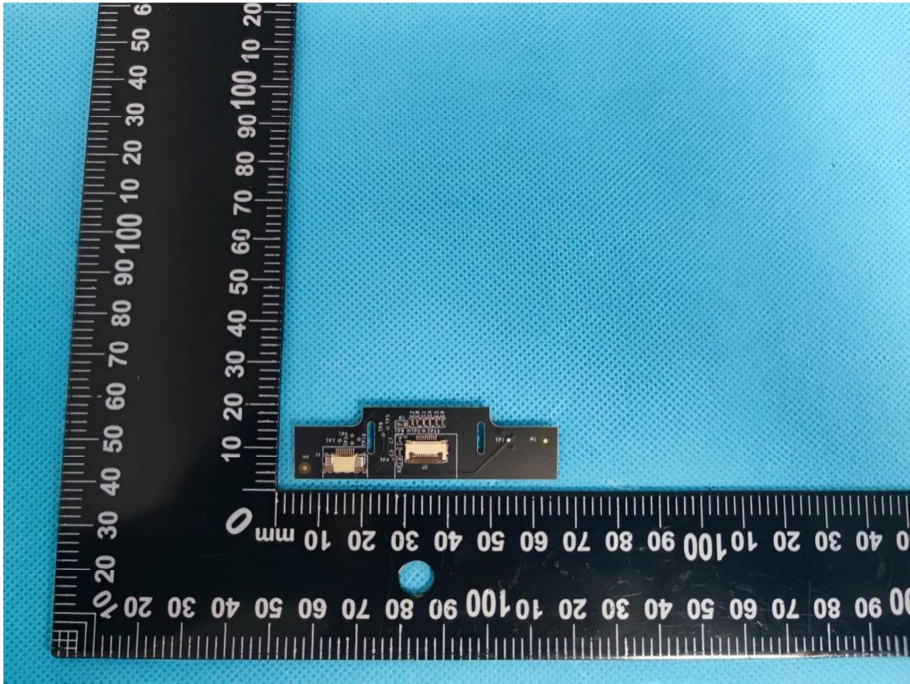

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>This photograph shows the external view of the EUT housing and its internal board. The housing is black with orange accents. The board is visible through a cutout in the housing. A ruler is placed next to the housing for scale.</p>
<p>EUT Housing and Board View 2</p>	 <p>This photograph shows the internal view of the EUT housing and its board. The housing is black with orange accents. The board is visible through a cutout in the housing. A ruler is placed next to the housing for scale.</p>

<p>Solder Board-Component View 3</p>	 <p>A photograph showing a small, rectangular solder board component with a central black square and two gold-colored pads on either side. The component is placed on a blue textured surface next to a black L-shaped ruler with white markings in millimeters. The ruler shows the component is approximately 30mm wide and 15mm high.</p>
<p>Solder Board-Component View 4</p>	 <p>A photograph showing the same solder board component from a different angle, revealing its top surface. It features a central black square, two gold-colored pads, and various printed markings and components on the board. The component is placed on a blue textured surface next to a black L-shaped ruler with white markings in millimeters. The ruler shows the component is approximately 30mm wide and 15mm high.</p>

<p>Solder Board-Component View 5</p>	 <p>A photograph showing a small electronic component, identified as HM-A300E-LCD, mounted on a blue textured surface. The component is rectangular with two gold-colored pads on its left side. It is positioned next to a black L-shaped ruler for scale. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10). The component is approximately 100 mm long and 20 mm wide.</p>
<p>Solder Board-Component View 6</p>	 <p>A photograph showing the same electronic component, HM-A300E-LCD, from a different perspective. The component is now oriented vertically, showing its top surface with various markings and a gold-colored pad on the right side. It is placed next to the same black L-shaped ruler for scale. The component is approximately 20 mm long and 100 mm wide.</p>
