# RC STUNT CAR

MADE IN CHINA

144mm

105mm

Thank you for choosing our toys! Please read through all instructions as they contain important information before operating the car to ensure that your play is both safe and fun.

**⚠ PRECAUTIONS:**

1. This toy is not intended to children under 3 years old.
2. Adult Supervision Required.
3. Follow basic safety precautions to avoid electric shock.
3. Any changes or modifications could void the user's authority to operate the equipment.

### Remote control car & controller

-1-

105mm

### Battery installation method

- (1) Install the batteries in the orientation (+/-) shown.
  - (2) Replace the battery cover as shown in the diagram below.
  - (3) Correctly install the rechargeable battery pack in the car's battery compartment.
  - (4) Fasten the screw with a plus driver.
- Note: The remote controller work indicator will only light up when the lever is operated.

2x1.5v "AA"

### Charging

- (1) Plug the charger into a standard electrical outlet, connect one side of the USB wires leading from the battery connector to the charger.
- (2) The charging time is 90 minutes. The charger does not light up when charging, and the charger lights up red when it is fully charged.
- (3) Regular checks are important for the car and other electric parts. If the toy or parts are damaged, please repair it before use.

-2-

105mm

### Basic operation of the product

- (1) Turn the RC car and remote controller switch on.
- (2) Control the direction of the car with the 2 control levers on the controller: Move forward/backward or turn left/right.
- (3) When not in use, turn off the car and remote controller.

Operation Tips: Please make sure the unit is turned ON when you are ready to play with it. If the unit is turned OFF, the car can not be started.

105mm

### Battery safety

- (1) Adult's supervision is required for the charging.
- (2) Remove rechargeable batteries from the toy before charging.
- (3) Remove exhausted batteries from the car and the remote controller.
- (4) Make sure the main switch is set to OFF before you install the battery pack into the car.
- (5) Note polarity marks in the battery compartments when you insert the batteries.
- (6) Do not try to charge non-rechargeable batteries.
- (7) Do not short-circuit the batteries.
- (8) Remove the batteries from the remote controller and the car during long periods of non-use to prevent leakage.
- (9) Never dispose the batteries into fire to avoid explosion or leakage.
- (10) Do not mix batteries from different producers or new and old batteries.
- (11) Use only recommended batteries or equivalent ones.
- (12) Check the batteries on a regular basis to avoid leakage.
- (13) Keep this manual well for future reference as it contains important information about this product.

### Care & maintenance

- (1) Remove the batteries when the unit is not in use for an extended period of time.
- (2) If necessary, clean the car by wiping it gently with a slightly damp cloth.
- (3) Do not expose this toy to high temperature, high humidity or direct sunlight.
- (4) Do not put this toy in water to avoid damaging the electronic components.

## Federal Communications Commission (FCC) Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by Hengshuihongrun Medical Devices Business & Trade Co., Ltd may void the FCC authorization to operate this device.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
