Smart Home Light Systems

Setup Guide

*Lighting Your Way to
a Clearer Future*

V2.0

WELCOME

BEACON40® is beautifully designed to enhance cognitive function and maintain brain health. It is precisely engineered to deliver light at 40Hz, mirroring the brain's healthy gamma rhythm and improving mental acuity, memory and attention.

BEACON40® lights complement your doctor-prescribed protocols. Always talk to your doctor when adding any supplement to your wellness routine.

This manual will guide you through proper setup and use.

WHAT'S INCLUDED

BEACON40® Solo light system

· 1 Base lamp

· 1 Power cord

· 1 Setup guide

BEACON40® Personal light system

· 1 Base lamp

· 1 Satellite lamp

· 2 Power cords

· 1 Setup guide

SETUP

1. Remove the **BEACON40®** Base lamp and the power cord from the packaging.

2. Insert the silver post of the power cord into the port at the bottom of the Base lamp. Connect the power cord to a wall outlet.

3. Press the power button **1** to begin use.

If you have BEACON40® Personal light system continue setup:

4. **BEACON40® Personal** light systems also include a Satellite lamp. Attach the power cord to the Satellite lamp as described. Place the Satellite lamp in the same room within 25 feet of the Base lamp.

5. Press the power button **6** on the Satellite lamp to turn it on.

6. Press and hold the pair button **5** at the back of the Base lamp. The lights will blink. The blinking means that the lights are ready to pair. Hold the pair button for a few seconds until both lights pulse. Your lamps are now paired.

SATELLITE

BASE

Use the controls on the **BEACON40®** Base lamp to set your preferences.

1 POWER
Turn your lights on and off.

2 TIMER
Set your lights to turn off automatically after 1, 2 or 3 hours.

3 TONE
Set your lights to: warm gold, white or cool blue. You may prefer a cooler tone during the daytime and a warmer tone in the evenings.

4 BRIGHTNESS
Turn the knob to your desired luminosity.

5 PAIRING
Press and hold the button to pair the Base lamp with the Satellite lamp.

RECOMMENDED USE

Find a comfortable setting for your lighting system.

Place each light where it will be unobstructed and in the peripheral view of the users. We recommend placement 3 – 12 feet from your location. Incorporate BEACON40® into your daily habits, with routine use for one or more hours each day.

BEACON40® lights are designed to fit comfortably into home and office environments. Use your lights while working, watching TV or reading.

Always consult your caregiver or doctor for best benefits.

Multiple BEACON40® light configurations can be set up for home, office and wellness centers.

PRECAUTIONS

BEACON40® is designed for use as a complement to your doctor-prescribed therapy. You should not use this product if you have a history of seizures or epilepsy, or if you have been diagnosed with photosensitive epilepsy. Consult a doctor before use if you believe you may be prone to photosensitive epileptic seizures.

This product is not a medical device. HomeoLux services and products are not intended to be used as a medical device. Furthermore, the services and the products are neither regulated nor approved by the U.S. Food and Drug Administration, and are not designed to detect or prevent causes of Alzheimer's disease or any other medical condition.

HomeoLux services and products are not a substitute for medical care or adult supervision. By using HomeoLux products you acknowledge, understand and agree that your use of the services and the product is entirely at your own risk.

A very small percentage of people may experience a seizure when exposed to flashing lights. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures". These seizures may have a variety of symptoms including lightheadedness, altered vision, twitching of the eyes or face, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness, Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects. If you experience any of these symptoms, turn off the light immediately and consult a doctor.

According to IEC62471-1:206-07 Ed. 1.0 photobiological safety of lamps and lamp systems, sources of optical radiation are classified into risk groups subject to their potential photobiological hazard. BEACON40 is GROUP1 (Low Risk). No photobiological hazard under normal behavioral limitations.

HomeoLux product BEACON40 device risk group is defined in IEC 62471-1:206-07 Ed. 1.0.

Viewing the lights closer than 200mm distance should be avoided. Please follow proper installation and use recommendations to avoid related risks.

Instruction for WiFi connection of 40Hz treatment lamp

Step 1 — Install tuya smart APP on your phone

Step 2 — When opening the "tuya smart" APP for the first time, register and log in the account according to the APP guidance.

Step 3 — Power on the product and start it up. Long press the power on button and press 5S to enter the distribution network mode. At this time, the LED will display alternating flashes of warm and cold.

Step 4 — Enter the homepage of the APP "Home", Click "+" and select "Add Device", the APP will scan the smart devices in the network to be configured. (Reminder: WiFi connection 2.4G network during network configuration)

Step 5 — 1.(If the device is not scanned, please click "Manual Add" and select "Illumination" and "Light Source Wi-Fi" to manually add the device)
1.1 According to the interface prompts, enter the password of the home wireless network, and the therapy lamp will be connected to the home wireless network

Step 6 — After the network is successfully configured, the treatment lamp host recovers the flashing frequency of 40Hz.

Step 7 — Set the name and location of the lamp. After completion, the device is added successfully
(After successfully adding the device, the smart device will appear on the home page of the tuya Smart App "Home".Click the device on the home page of APP, and enter the device control interface to control the device.)
Note:
Android 4.3 or iOS 8.0 or above, any WiFi enabled smartphone supports it.
