**Key Features**

- Bluetooth headphone
- Built-in microphone for hands-free use with Bluetooth enabled devices
- Comfortable adjustable design
- Connects automatically to previously connected devices

Description of Parts:

1	TF card slot
2	Volume down/Previous track
3	Volume up/Next track
4	**Build-in Microphone**
5	AUX port
6	LED Light Indicator
7	Type-C Charging port
8	Phone/Play/Pause button
9	Power on/off button

INSTRUCTIONS FOR USE

Charging Instructions

- Connect the USB charging cable to a computer USB port and the Micro USB plug to the charging port of the device. The Red LED light turns on while the device is charging. It takes 1-1.5 hours for the unit to fully charge. When the battery is fully charged, the red light will be off.

Turning on/off the device

- Press the " ⏻ " button for 2-4 seconds to turn ON or OFF the device with indication tone.

Pairing the device with Bluetooth devices (phone or music device)

- Activate the Bluetooth function on your Bluetooth device (phone or music device). Please refer to the manufacturer's instructions for instructions on enabling Bluetooth on your device.
- Once you have activated Bluetooth on your device, select the "   "from the list of available Bluetooth devices.
- You can now start to use the device.
- Please note pairing mode on the device will last for around 10 minutes. If no devices are paired within around 10 minutes the device will power off automatically.
- If pairing is unsuccessful, turn off the device and try again.
- Once you have paired the Bluetooth Headphone with a device, the Headphone will remember this device and will pair automatically when the device's Bluetooth is activated and in range. You do not need to re-pair any previously connected devices.

Built-In Battery	150mAh

(Note: Battery life & charging time may vary based on usage & types of devices used.)

FCC compliance statement
This device complies with Part 15 of
the FCC Rules. Operation is subject
to the following two conditions:(1)
this device may not cause harmful
interference, and (2) this device
must accept any interference
received, including interference that
may cause undesired operation.
This equipment generates, uses andcan radiate radio frequency energy
and, if not installed and used inaccordance with the instructions,may cause harmful
interference toradio communications. However,there is no guarantee thatinterference will not
occur in aparticular installation. If thisequipment does cause harmfulinterference to radio or
 televisionreception, which can be determined
by turning the equipment off and on,
the user is encouraged to try tocorrect the interference by one ormore of the following
measures:—Reorient or relocate the receivingantenna.
-Increase the separation betweenthe equipment and receiver.—Connect the equipment into
anoutlet on a circuit different from thatto which the receiver is connected.—Consult the
dealer or anexperienced radio/TV technician forhelp.
Changes or modifications not expressly
approved by the party responsible for
compliance could void the user's authority
to operate the equipment.
The device has been evaluated to meet general
RF exposure requirement. The device can be used
in portable exposure condition without restriction.
