* For more detail information, please contact customer support.

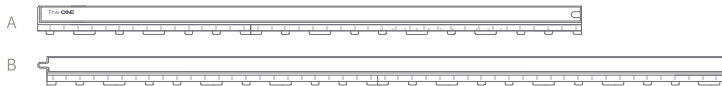

SET UP

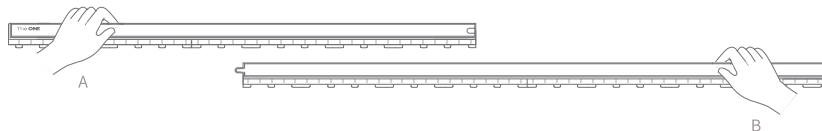

1 Place Piano Hi-Lite correctly

This product is divided into two parts: part A and part B. After removing package, please connect the interfaces of parts A and part B by magnetic suction. Then, place the completed product on the root of the keys in straight and flat manner with part A on the left and part B on the right. Then slightly adjust the product to inside edge, to make sure all grooves go well with black keys' bump.

2 Connect to Power

Insert the power cord/red USB plug into the 5V power adapter, then connect another side with Type-C plug to the socket located in the logo side of part A.

Connect the power adapter to the 110V-240V outlet, and all LED lights on the Piano HI-Lite will turn on and enter the self-testing mode. Self-testing mode will last for 5-10 seconds, which is a necessary process.

* Notice: Before all lights turn off, don't press any keys. Otherwise, self-testing mode will last longer.

USAGE

1 Download the App:

Scan below QR code, to download The ONE APP. Or search "The ONE Smart Piano" in Apple App Store/Google Play to download The ONE APP.

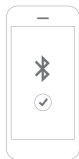

2 Connect the App:

Once all lights on Piano Hi-Lite turn off, you can connect app in the following two ways:

(1) Bluetooth connection: (recommended)

1. Turn on Bluetooth in your smart device. (Notice: please connect Bluetooth through the App, do not connect in system setting.)
2. Ensure Piano Hi-Lite is powered on.
3. Open "The ONE Smart Piano" app, go to "My Account" > "Bluetooth Setting", select "The ONE Piano Hi-Lite" and wait until it shows "Connected"

1. Turn on smart phone's Bluetooth

2. Open the app

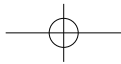

3. Open Bluetooth setting in app

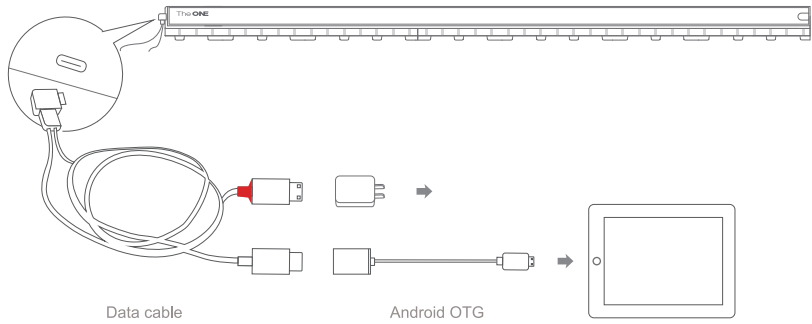

4. Select The ONE Piano Hi-Lite

(2) Cable Connection:

Because there are some models of Android devices not supporting Bluetooth connection, those devices can use Cable Connection instead. Connect the USB Data Cable which comes with product to the left end of Piano Hi-Lite, then insert the cable converter to connect with your smart device.
