COMPLIANCE INFORMATION:

1. CE Conformity.

The product satisfies all the technical regulations applicable to the product within the scope of Council Directives 2014/30/EU(EMC),2014/35/EU(LVD):

Test Standard: EN55032:2015

EN61000-3-2:2014, EN61000-3-3:2013

EN55024:2010

EN60950-1:2006+A11:2009+A1:2010+A12:2011+A2:2013

2. WEEE.

The mark is in compliance with the Waste Electrical and Electronic Equipment Directive 2012/19/EU (WEEE).

The mark indicates the requirement NOT to dispose the equipment including any spent or discarded batteries or accumulators as unsorted municipal waste, but use the return and collection systems available.

3. Declaration of RoHS Compliance.

This product has been designed and manufactured in compliance with Directive 2011/65/EU of the European Parliament and the Council on restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS Directive) and is deemed to comply with the maximum concentration values issued by the European Technical Adaptation Committee (TAC).

Substance	Proposed Maximum Concentration	Actual Concentration
Lead (Pb)	0.10%	< 0.1%
Mercury (Hg)	0.10%	< 0.1%
Cadmium (Cd)	0.01%	< 0.01%
Hexavalent Chromium (Cr6+)	0.10%	< 0.1%
Polybrominated biphenyls (PBB)	0.10%	< 0.1%
Polybrominated diphenyl ethers (PBDE)	0.10%	< 0.1%

4. From the Manufacturer.

Product: Projector

Model: M10

Input: AC100-240V, 50/60Hz, 1.0A

Manufacturer: Shenzhen meterle photoelectric Technology Co.,Ltd.

Address: 1F, Building B1, No.B2, Guantian Hengkeng Industrial Park, North Ring Road, Shiyan Street, Shenzhen, Guangdong Province

- **Show plus and minus keys:** move up and down the project menu in the menu options.
- **TV signal source choice:** select the signal or an external video signal.
- **Lens:** rotate the lens, the adjustable image of each pixel is focused on the status, change the extent of image clarity.
- **Into the outlet:** the air - cooled heat dissipation system into the outlet, in use process, do not make it obscured or congestion, so as to avoid burning the unit.

2. Remote Control Introduction.

- Between the remote control and remote control receiving host window please do not put any items, In order to avoid blocking the signal.
- Please point the remote control to the left side of the projector or the projection screen, to receive the Infrared Radiation.
- Please do not make the light point-blank main engine remote control receiving window to prevent remote signal is invalid.
- The former straight to the main engine remote control of the remote control receiving window, about 30 degrees at 6 meters distance within the scope of operation, otherwise, may not receive the signal.
- Such as long-term when not in use please take out the battery, remote control to prevent battery leakage corrosion.
- After the battery used long, if found remote control cant work properly please replace new battery.
- Do not put the remote control in high temperature or damp places, in order to avoid damage.

USER MANUAL:

1. Power on / Power off.

After the projector gets power through the adapter, it goes into stand-by status:

- Press “” button or press remote control to get the projector on.
- Press the “” button again to turn off the projector.
- Pressing the “” button once again can't shut down the engine power. If you don't use the machine for a long time, please put the power cord from the main socket.

2. The basic operations of a menu.

- Hit the “” on the projector, show the MENU screen.
- According to the remote control or the “” “” button on the projector you need to adjust or set level menu items, the menu of the selected icon will brighten.
- According to the remote control or the “” “” button on the projector in the lower menu choice you need to adjust the menu item.
- And then press the remote control or the “” button on the projector, activate the selected icon menu at secondary menu.
- Press the “” “” “” “” key, adjust the parameter values for the selected menu item.

Repeat the second to fifth step regulate other MENU items, or directly click 'MENU' or 'EXIT' button to EXIT a single interface.

3. Multimedia boot screen.

When the projector starts working, the screen displays (about 2-5 seconds) and comes into the multimedia screen.

4. Focus & Keystone.

Sometimes, the image projected on the wall is a little twisted like a ladder, we can adjust it with the keystone button . The keystone function is the technology that gets the normal display image by digital or optical technology.

Image focus: Put the projector vertical to the projector screen or white wall, adjust the focus  until the image is clear enough, then the focus is finished. During the focusing, you could display video or display the menu to check the adjustment.

- Our projector provides optical keystone function, so you could turn the keystone to adjust the image.
- Our projector doesn't have horizontal keystone correction function, if you have this problem, which is because you have not place the projector and the projection screen vertically. The solution is: you can

adjust the projector's position and place it horizontally.

5. Multimedia Connection.

- VGA input socket: from the port can be connected to a computer or other VGA video signal output socket.

Please refer to the following table parameters to adjust the output signal of the computer.

Type	Resolution		Frequency (KHz)	Field Frequency (Hz)	VESA

	Picture file	JPEG/BMP/PNG
	Video file	3GP(H.263,MPEG4)/AVI(XVID,DIVX,H.264)/MKV(XVID,H.264,DIVX)/FLV(FLV1)/MOV(H.264)/MP4(MPEG4,AVC)/MEP(MEPG1) VOB(MPEG2)/MPG(MPG-PS)/RMVB(RV40)/RM

Choose the content which you need to display: video, Music Photo Text.

Our projector supports HDMI, MHL and iPush connection, you can connect your mobile devices and tablet with it.

PRODUCT TECHNOLOGY FEATURES:

Projection Tech	LCD TFT Projection system
Contrast Ratio	2000:1
Display Colors	16.7M
Lamp color temperature	20000K
Lamp life time	50000 H
Power supply	AC IN : ~100V-240V, 50/60HZ, 1.0A
Projector consumption	50W
lens	Multichip composite coating optical lens
AV INPUT	AV
Signal Format	The Global Standard
Correction	Optical ± 15 degree
A single continuous use time	«24hour
Projection size	38-170inch
Projector Weight	0.86Kg
Noise and Light leaking	Low Noise , Low Light leaking
Dimension	202 x 147 x 79 mm
Audio Frequency	2W+2W
Signal Ports	VIDEO INPUT(1. OVp-p +/-5%) VGA INPUT (800 X600@60Hz 1024X768@60Hz) HDMI INPUT(480i 480p 576i 720p 1080i 1080p)
USB TF card Format	Video Format: MPEG1, MPEG2, MPEG4, RM, AVI, RMVB, MOV, MKV, DIVX, VOB, M-JPEG Music Format: WMA, Mp3, M4A(AAC) Photo Format: JPEG, BMP, PNG

WARRANTY EXCLUSIONS:

The warranty will not be valid if:

- The product has not been installed, operated or maintained in accordance with the manufacturers operating instructions provided with the product.
- The product has been used for purposes other than its intended function.
- The product has been used for purposes other than household use.

The damage malfunction of the product is caused by any of following conditions:

- 1) Incorrect voltage.
- 2) Accidents (including liquid or moisture damage).
- 3) Misuse or abuse of the product
- 4) Faulty or improper installation
- 5) Mains supply problems including power spikes or lightning damage
- 6) Infestation by insects
- 7) Tampering or modification of the product by persons other than authorized service personnel
- 8) Exposure to abnormally corrosive materials
- 9) Insertion of foreign objects into the unit
- 10) Used with accessories not pre approved

Please refer to and heed all warnings and precautions in the User Manual.

Our company provides customers with a warrant of 24 MONTHS from the date of purchase.

Should you experience any problems not covered by the FAQ, please don't hesitate to email us at:

POYANKvip@sina.com

and you will get extra 6 MONTHS warranty.

We will offer solutions to your issues or a direct replacement/refund without delays.

FCC Statement:

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The distance between user and products should be no less than 20cm.
