realme Buds Air Pro

User guide

please read carefully before using the product

SELECTING EAR TIPS

Step 1

Choose suitable ear tips

Install the ear tips

Step 2

Try on ear tips of varying sizes and choose the one that best suits you. Appropriately sized ear tips will provide the best experience in terms of noise reduction, music, and comfort.

BLUETOOTH PAIRING

Open the upper cover of the charging case, place the earbuds inside, then press and hold the multi-function button for 3 seconds to switch the earbuds to Bluetooth pairing mode.

*When using the product for the first time, open the upper cover of the charging case with the earbuds inside to automatically switch to Bluetooth pairing mode.

The indicator light of the charging case will flash green.

Search for "realme Buds Air Pro" on Bluetooth to complete the pairing process.

*After the earbuds are paired, they will automatically connect when the charging case is opened.

TOUCH COMMANDS

Music

X2 ►/■ Tap either earbud twice to play/pause. X3 Tap either earbud three times to skip to the next song. Call —

gm

X1 (+ Tap either earbud once to answer a call. X2 Tap either earbud twice to reject or hang up a call.

Noise reduction mode switch/Game mode

Press and hold either earbud for 2s to switch between noise reduction/transparency mode. Press and hold both earbuds for 2s to enter or exit aame mode.

Wear testing:

Music should automatically stop if you take off either earbud during playback. Putting the earbud back on will automatically resume the music.

Resetting the earbuds

Press and hold the pairing button for 10 seconds to clear the earbud's pairing history and restore it to factory settings.

NOISE REDUCTION

- When in noise reduction mode, the realme Buds Air Pro collects external noise through a built-in microphone, which is then neutralized by generating an equivalent reverse sound wave.
- When in transparency mode, the realme Buds Air Pro collects external sounds, improving your ability to perceive and communicate with your surroundings without taking the earbuds off.
- The noise reduction function can reduce, but not eliminate, low-frequency noise.
- If you feel that the noise reduction function isn't working for you, select some appropriate earplugs to improve your experience.

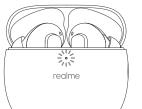

Use with realme Link

- Users can download realme Link to install firmware updates and additional features for their Buds Air Pro.
- To download and install the realme Link app, search for it on your app store or scan the QR code below.
- realme Buds Air Pro is only available on the android terminal and with realme Link

CHARGING

Red light indicates low battery (≤ 20%)

Green light indicates sufficient battery (>20%)

• Charge the case with the provided Type-C cable. When plugged in, the indicator will light up to signal that the case is charging.
