

INSTRUCTION MANUAL

Service Email: sales@jousecu.com

STRANGULATION HAZARD — Children have STRANGLED in cords. Keep this cord out of reach of children (more than 3 feet/1 meter away from the crib). Never use extension cords with AC adapters. Only use the AC Adapters provided.

WARNING
Adult assembly required. Keep small parts away from children when assembling.

Warning Information
* Keep this instruction manual for future reference.
* For adult use only.

1 Setup and use your video baby monitor

Installing Baby Unit

A. Place Baby Unit on a flat surface, such as a desk or shelf or mount the camera on a wall.

Never place the baby unit or the cord within 1 meter of the crib.

B. Connect the small plug of the power adapter to the Baby Unit and the other end to a suitable electrical outlet. Only use the enclosed adapter (5V DC 1000mA). The baby unit is turned on and the power LED will be green.

C. Connecting the power supply for the Parent Unit.
Connect the small plug of the power adapter to the base bracket or the parent unit and the other end to a electrical outlet. Only use the enclosed adapter (5V DC/2000mA). Recommend charging time of at least 3 hours before first use.

2 **Precaution: use of battery for Parent Unit**
Only charge the battery when the battery life indicator is low. Constant recharging of your battery before the low battery indicator light comes on will decrease the life of your batteries.

When battery is low, the power on off LED (icon) will flash red and on screen display battery icon will flash red indicating that the battery needs to be charged.

WARNING THIS PRODUCT CANNOT REPLACE RESPONSIBLE ADULT SUPERVISION

- When an AC Adapter is plugged into an electrical outlet, do not touch the exposed end.
- Test baby monitor before first use, periodically, and when changing location of the baby unit(Camera).
- Do not use monitor near water (Such as bathtub, Sink, etc).
- Keep parent unit away from heat sources (Such as stoves, radiators, etc).
- Make sure there is proper ventilation around baby unit and parent unit.
- This product is not a toy. Do not allow children to play with it.
- The mains plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.
- The baby monitor should not be considered as a medical device. While using the baby monitor, it is strongly recommended to have an adult directly checking on your baby. Premature babies or children considered at risk must be supervised by your pediatrician or other medical staff.

Battery Warning

- Use only the original rechargeable battery provided.
- Do not short-circuit supply terminals.
- Remove battery when product is stored for long periods of time or when battery is exhausted.
- Dispose of exhausted battery properly.
- Keep all batteries away from children.
- The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.
- Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.
- Batteries (battery pack or batteries installed) shall not be exposed to excessive heat such as sunshine, fire or the like.

Precautions

- Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
- The baby monitor works better in temperature ranging between 0 C and 40 C (32 F and 104 F).
- Do not dismantle the appliance. It does not contain any parts that may be used independently.
- Never expose the baby monitor for long period to sun's direct rays and never place it next to a source of heat, in a damp or very dusty room.
- Never push objects of any kind into this product through openings they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.
- Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.
- The product should be mounted to a wall or ceiling inly as recommended by the manufacturer.
