INSTRUCTION MANUAL

WARNING **STRANGULATION HAZARD** — Children have STRANGLED in cords. Keep this cord out of reach of children (more than 3 feet/1 meter away from the crib). Never use extension cords with AC adapters. Only use the AC Adapters provided.

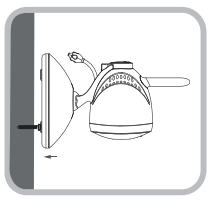
⚠ WARNING
Adult assembly required. Keep small parts away from children when assembling.

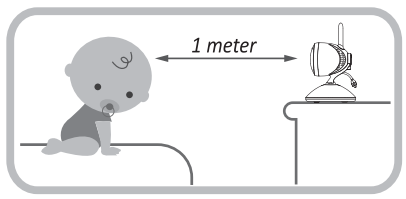
Warning Information
* Keep this instruction manual for future reference.
* For adult use only.

1 Setup and use your digital video baby monitor

Installing Baby Unit

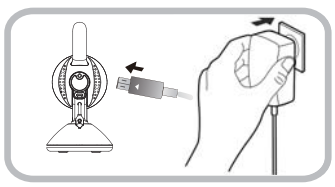
A. Place Baby Unit on a flat surface, such as a desk or shelf or mount the camera on a wall.

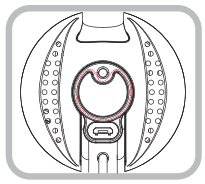




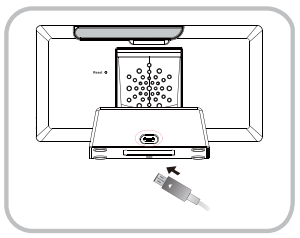
Never place the baby unit or the cord within 1 meter of the crib.

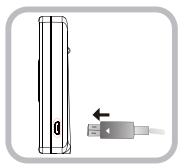
B. Connect the small plug of the power adapter to the Baby Unit and the other end to a suitable electrical outlet. Only use the enclosed adapter (5V DC 1000mA).
The baby unit is turned on and the power LED will be green.





C. Connecting the power supply for the Parent Unit.
Connect the small plug of the power adapter to the base bracket or the parent unit and the other end to a electrical outlet. Only use the enclosed adapter(5V DC/1000mA).
Recommend charging time of at least 3 hours before first use.

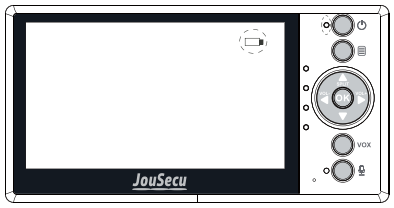




2

Precaution: use of battery for Parent Unit
Only charge the battery when the battery life indicator is low. Constant recharging of your battery before the low battery indicator light comes on will decrease the life of your batteries.

When battery is low, the power on off LED (icon) will flash red and on screen display battery icon will flash red indicating that the battery needs to be charged.



Notice:
If you use the parent unit for the first time, when you turn on the parent unit, some boot menus will pop-up on the screen, we try to explation status and function on these menus, please according to the tips to switch to the monitor system interface. When you are fimaliar with this monitor, you could switch off these on screen tips in menu.

- Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.
- The product should be mounted to a wall or ceiling inly as recommended by the manufacturer.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Caution

To assure continued compliance, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. (Example - use only shielded interface cables when connecting to computer or peripheral devices).

FCC Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

Industry Canada Statement

This device complies with Industry Canada licence-exempt RSS standard.

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

(1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

IC Radiation Exposure Statement:

This equipment complies with IC RSS-102 radiation exposure limit set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Cet équipement est conforme aux CNR-102 d'Industrie Canada. Cet équipement doit êtreinstallé et utilisé avec une distance minimale de 20 centimètres entre le radiateur et votrecorps. Cet émetteur ne doit pas être co-localisées ou opérant en conjoncti on avec autreantenne ou émetteur. Les antennes utilisées pour cet émetteur doivent être installés etfournir une distance de séparation d'au moins 20 centimètre de toute personne et doit pas être co-située ni fonctionner en onjonction avec une autre antenne ou émetteur.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communica-otions. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

. Reorient or relocate the receiving antenna.

. Increase the separation between the equipment and receiver.

. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

. Consult the dealer or an experienced radio/TV technician for help.

JouSecu's baby monitor warranty policy

JouSecu will repair or replace (at our option) your unit free of charge for 12 months from the date of purchase if the unit is defective in workmanship or materials. To claim your repair/replacement, the product must be returned to JouSecu together with a copy of the purchase receipt. In the absence of the purchase receipt, the warranty will be 12 months from the date of manufacture. This warranty does not apply to normal wear or damage from misuse, abuse, improper storage and handling, installation, accident, unauthorized repair or alteration. Please contact our Customer service by Facebook JouSecu or via email for details.
