

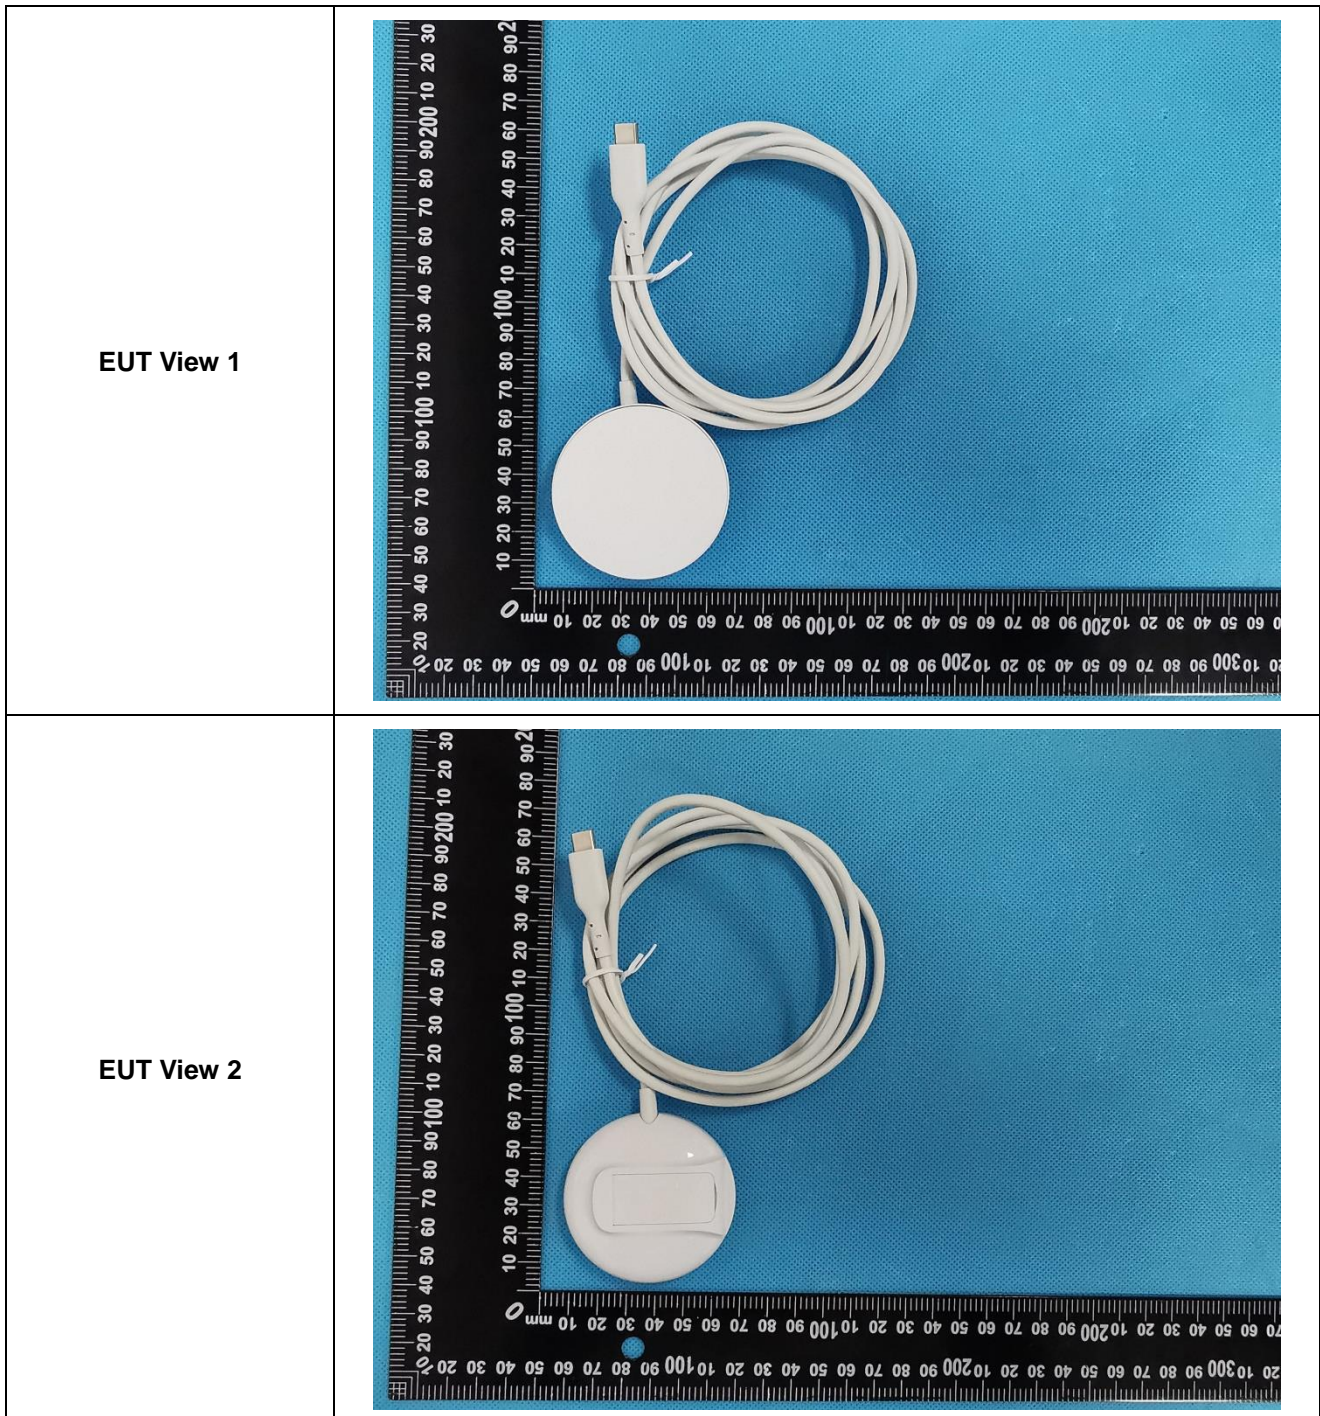

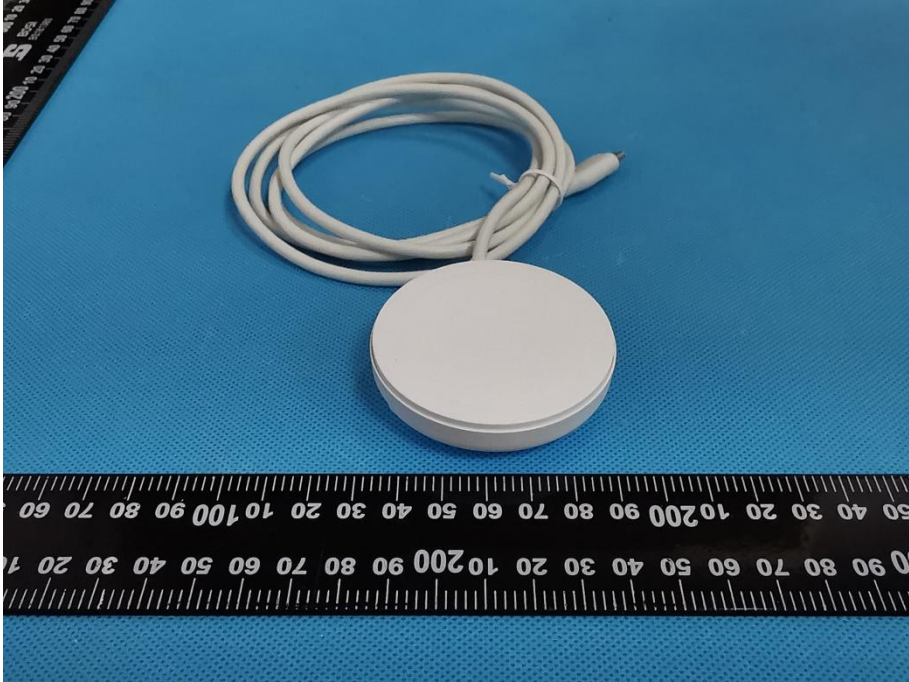

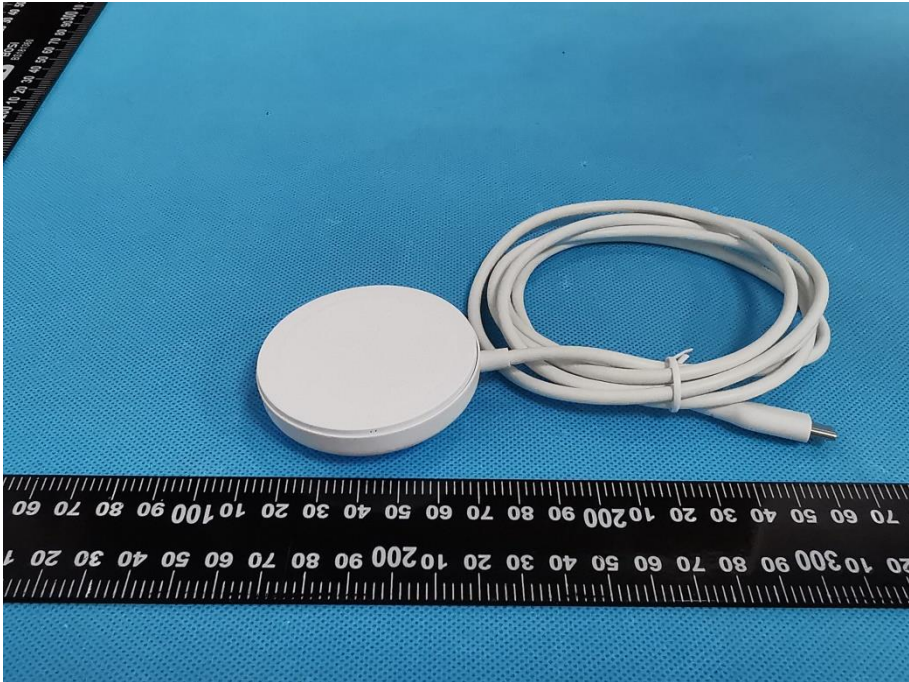

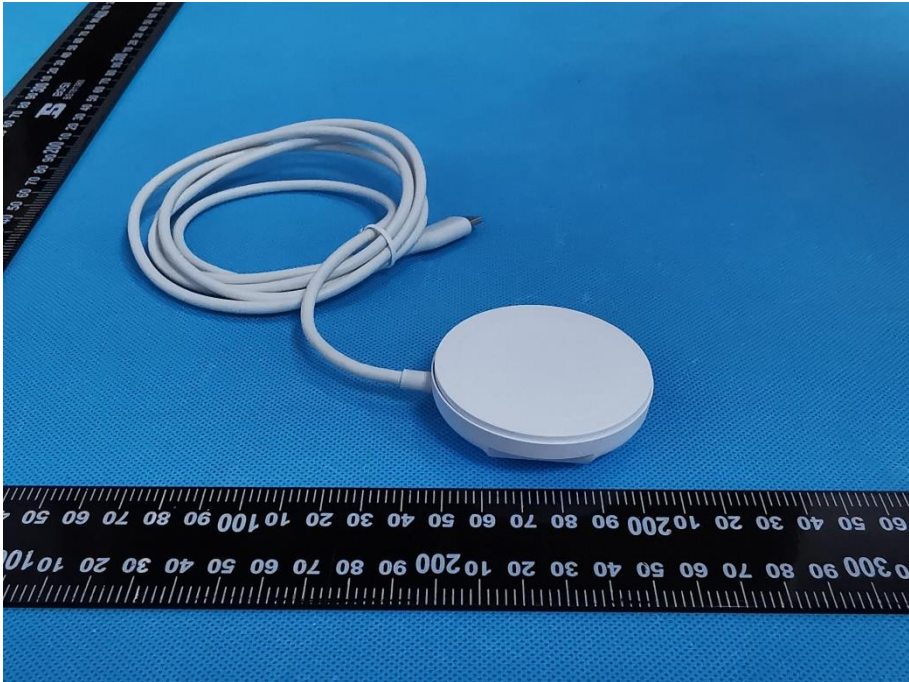

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

<p>EUT View 3</p>	 A photograph showing a white, circular, disc-shaped device with a coiled white cable. The device is positioned on a blue textured surface. A black ruler with white markings is placed horizontally below the device, showing measurements in centimeters. The ruler is oriented upside down relative to the device. The device is approximately 4 cm in diameter. The cable is coiled and has a small connector at the end.
<p>EUT View 4</p>	 A photograph showing the same white, circular, disc-shaped device with a coiled white cable as in View 3. The device is positioned on a blue textured surface. A black ruler with white markings is placed horizontally below the device, showing measurements in centimeters. The ruler is oriented upside down relative to the device. The device is approximately 4 cm in diameter. The cable is coiled and has a small connector at the end.

<p>EUT View 5</p>	 A photograph showing a white, circular, flat electronic device (EUT) with a white cable attached. The device is positioned on a blue textured surface. A black ruler with white markings is placed below the device for scale. The cable is coiled to the right of the device.
<p>EUT View 6</p>	 A photograph showing the same white, circular, flat electronic device (EUT) with a white cable attached, viewed from a different angle. The device is positioned on a blue textured surface. A black ruler with white markings is placed below the device for scale. The cable is coiled to the left of the device.
