

## Beate Pro User Manual

### Specification:

Main function	Bluetooth player, answering calls
Material	ABS
specification	JL V5.0
Transmission Distance	≥10m
Speaker	2*20mw
Battery specification	2*35mAh
Charging stand battery	250mAh
Play time	2-4H
Product size	50*45*18mm
product n.w	50g
Color	White (optional)

### Charging the battery

Fully charge the earphone rechargeable case (with earphone inside) before using them for the first time.

Plug the provided USB charging cable into the Micro USB socket on the bottom of the rechargeable case and the other end (USB-A) into your charging device.

When the rechargeable case is being charged, the Red LED light will flash. The Red LED light will be vanish once the battery is full charge.

To Charge the earphone, place them into the rechargeable case, providing there is power left in the rechargeable case, they will automatically charge. If it has been some time since the last use of the earphone, press the button on the back of the rechargeable case which will start the charging process.

**Pairing your earphone**

In order to use the charging, they must be paired with a compatible Bluetooth device before you will be able to use them (Pairing means to establish a connection between two Bluetooth devices).

Remove the earphone from the rechargeable case and the earphone will power on automatically, they will flash in Blue and Red alternatively to indicate pairing mode. Turn on your Bluetooth from your device settings and select 'Power Beate Pro' on the list of available devices. The earphone will 'beep' once paired.

The earphone will automatically connect to the last connected device that is within range.

**Receiving Calls**

Once the earphone are connected to your Mobile Phone you are ready to receive phone calls. You answer a call by tapping either side of your earphone (Touch Control) once and tapping twice to refuse a call.

**Connection**

Connection range from device to earphone is 10m.

Please keep away from Wifi, router or other high frequency transmitting equipment to prevent interruption of signal.

#### FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
