User Manual

10.1 inch Tablet PC

Product overview

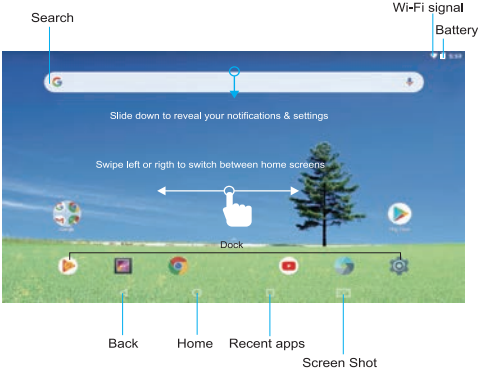

Charging

Fully charge your tablet for 6 hours before the first use.

Use the included wall charger.

The battery indicator will show that your devices is charging.

Screen basics

Connecting to Wi-Fi

- Enter the settings app located in the apps menu, tap Wi-Fi.
- Be sure Wi-Fi is turned on.
- Choose your network and enter your password.

Google account

The first time you see the Google play store app you will be prompted to create a Google account. If you already have a Gmail™ account. You have the option to sign in using your Gmail address and password. If you do not have a Gmail account, follow the prompts to create an account.

At the end of the setup, you will be asked to enter a credit card with Google wallet. You can skip this step for now and enter your information later when you make a purchase.

Adding Other Accounts

You can also add accounts from other social networking and messaging apps you have installed. Go to settings and tap accounts.

Connecting to a computer

- Connect to your computer by USB.

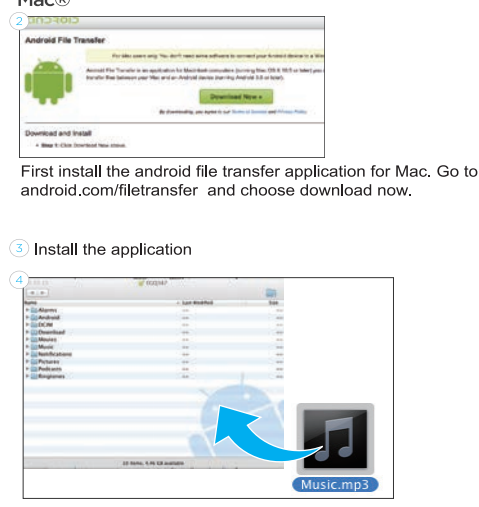

Windows™

- The device driver will install.
- Choose open folder to view files or to select the removable disk.
- You will now be able to drag and drop files from your computer onto your tablet just as you would with a USB flash drive.

Mac®

- First install the android file transfer application for Mac. Go to android.com/filetransfer and choose download now.
- Install the application.

The Android™ file transfer application will launch automatically when you connect your tablet. Drag & Drop files to transfer.

Reset/Restore

Reset Device by pressing the reset button with a small object, such as a paperclip.

Factory reset

Select backup and reset in settings to restore factory settings. This will erase all data on the tablet

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
