TROUBLESHOOTING

Q1. The tablet doesn't power on. * Reboot your tablet after charging for more than 30 minutes. * Press the power button to check if the tablet is in the Sleep Mode. * Press and hold the power button for 10s to reboot it. * Press the Reset button with a pin to reboot the tablet.

Q2. The tablet doesn't charge. * Make sure the USB cable is properly plugged into the charging port. * Try another compatible USB cable and adapter.

Q3. Error message occurs during the operation. * Uninstall the App with the error message, then download and install again.

14

* Press the **Reset** button with a pin to power off the tablet.

Q4. The tablet cannot be detected by the computer. * Make sure the tablet is powered on. * Try another USB cable. * Try another USB port on the computer. * Instead of Charge only, choose Media device(MTP) or Camera(PTP) when connecting the tablet to the computer.

Q5. The tablet cannot connect to the Wifi. * Make sure the Wifi in your tablet is ON. * Make sure you input the correct password when connecting the Wifi. * Restart the router. * Make sure there is no filter setting or device connection limitation in the setting of the router. * Forget the current Wifi, reset the router and connect the Wifi again.

Q6. The storage space of the tablet is not enough. * Delete the Apps you don't use. * Clear the cache of the Apps regularly. * Install a memory card to expand the storage.

Q7. The screen is unresponsive. * Check if the screen is dusty or greasy. If yes, please gently wipe the screen with a cloth to clean it.

O8. The font size is too small to read. * Please go to Settings > Display > Advanced > Font Size to adjust the text size.

Q9. Can the tablet support OTG function? * Yes, but an extra OTG cable is required. You can connect the mouse or a USB drive through the cable then.
