

# Braemac Wireless Charger

Model: WPC\_BR\_01

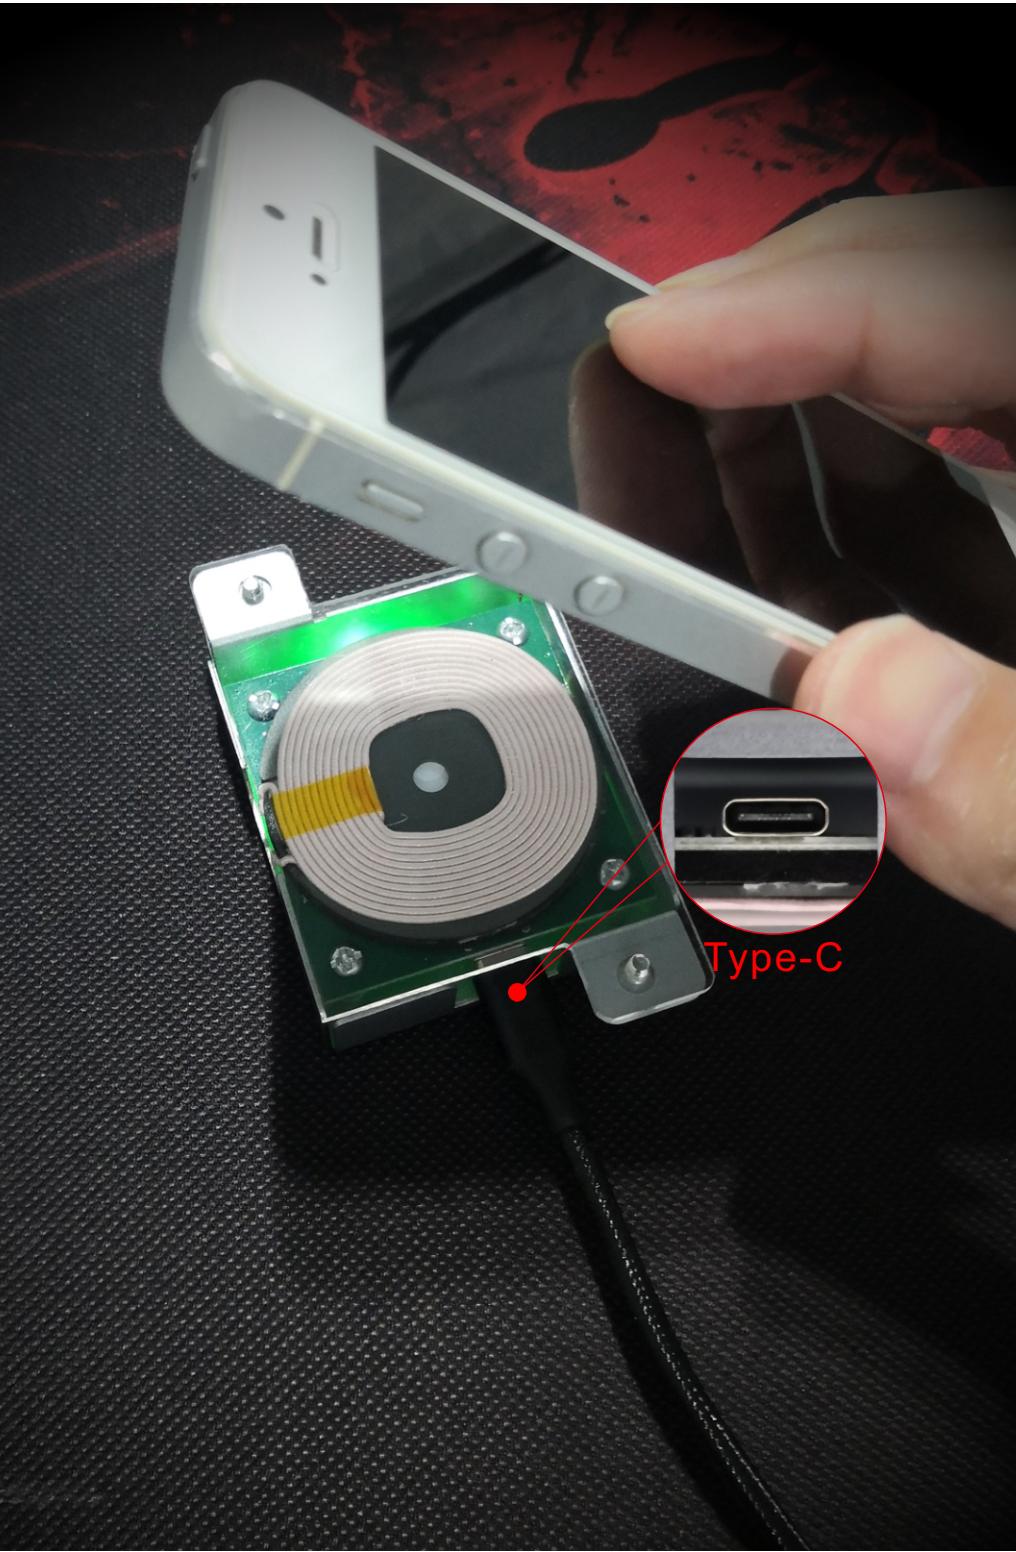

## Product Size

## Product Parameter

- ◆ Charging Type: Wireless magnetic induction
- ◆ Standard: Qi
- ◆ Input: DC 5V/9V/12V, 2A
- ◆ Output: DC 5V/9V, 1.67A(Max)
- ◆ Transmit power: 15W(Max)
- ◆ Transmit distance: 4-9mm
- ◆ Shell material: metal

## Small size, Strong power

This product adopts the theory of electromagnetic induction. Transfer electricity from power supply to the device that will be charged by electromagnetic wave. It uses advanced, distinguished and controlled technology, which can realize low power standby charge indication. The charging efficiency can reach up to 70%. Any device pass the Qi certification can be charged on the board.

**FCC Warning**  
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part15 of the FCC rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

### FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This equipment should be installed and operated with minimum distance 15cm between the radiator & your body.

### ICSED RSS warning

This device complies with ISED licence-exempt RSS standard (s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

### ISED Radiation Exposure Statement:

This equipment complies with ISED RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

### ISEDexposition aux radiations:

Cet équipement est conforme avec ISED les limites d'exposition aux rayonnements définies pour un contrôlé environnement.

Cet émetteur ne doit pas être co-localisés ou fonctionner en conjonction avec une autre antenne ou émetteur.

Cet équipement doit être installé et utilisé avec un minimum de 20cm de distance entre le radiateur et votre corps.
