SAFETY INSTRUCTIONS

To ensure safe use, please read this instruction carefully before using this product and use it in the right way according to the instruction. Please keep this instruction properly for future reference.

Power: The product can only work with the power supply that is indicated in this instruction or specified in the product.

No Heavy Objects & Overheating: Do not place heavy objects on the product. It should avoid sun burning and keep away from hot sources. Do not put it in high temperature or moist conditions.

Power Line Protection: The power line should not be stepped, squeezed or dragged.

Don't use a low power voltage regulator or regulated power supply, to avoid burning down the product or the regulated power supply.

This product is only suitable for use in places below 2000 meters above sea level. It may cause dangerous risks when it is used over 2000 meters above sea level.

Mind Electricity Shock: Don't plug or unplug the power supply with wet hands to prevent electric shock.

Rear Plate Disassembly: Please do not disassemble the rear plate. If repair is needed, please ask the professional to operate it.

Non-use Period: If you do not use this product for a long time, please turn off the power and unplug the power supply.

The Speaker Top: Don't place objects like vases or containers filled with liquid. Please maintain air ventilation to dissipate heat.

This product is only suitable for use under non-tropical climate conditions. It may cause dangerous risks when it is used under tropical climate conditions.

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

IC STATEMENT

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

The term "IC: " before the certification/registration number only signifies that the Industry Canada technical specifications were met.

This product meets the applicable Industry Canada technical specifications.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment should be installed and operated with a minimum distance of 20centimeters between the radiator and your body.

Le présent appareil est conforme Après examen de ce matériel aux conformité ou aux limites d'intensité de champ RF, les utilisateurs peuvent sur

l'exposition aux radiofréquences et compliance d'acquérir les informations correspondantes. La distance minimale du corps à utiliser le dispositif est de 20cm.

- French:"

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
(1)l'appareil nedoit pas produire de brouillage, et
(2)l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."
