- Keep your charging station away from moisture and corrosive materials.
- Gardez votre station de charge à l'écart de l'humidité et matériaux corrosifs.
- Mantenga la estación de carga lejos de la humedad y los materiales corrosivos.
- Halten Sie Ihre Ladestation von Feuchtigkeit fern und ätzende Materialien.
- Tenere la stazione di ricarica lontana da umidità e materiali corrosivi.
- Şarj istasyonunuzu nemden uzak tutun ve aşındırıcı maddelerden.
- Mantenha sua estação de carregamento longe de umidade e materiais corrosivos.
- Храните ваше зарядное устройство вдали от влаги и агрессивных материалов.
- 充電ステーションを湿気から遠ざけてください。および腐食性物質。
- 충전 스테이션을 습기로부터 멀리하십시오. 부식성 물질.
- 保持充電器乾燥並遠離濕氣和腐蝕性材料。
- 保持充電器乾燥並遠離濕氣和腐蝕性材料。

**FCC Statement**  
This device complies with part 18 of the FCC Rules. Operation is Subject To the following two conditions:  
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not explicitly approved by the party responsible for compliance could void the user's authority to operate this equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 and part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and radiates radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.

This device complies with Part 18 of the FCC Rules. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Increase the separation between the equipment and any other radio device.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
