

Date: 9/5/2023

Attn: FCC Office of Engineering and Technology / UL Verification Services TCB

Ref: Class 2 Permissive Change for FCC ID: 2AVCWMWC434M

Original approval date: April 5, 2021

Additional C2PC dates: n/a

Applicant: Miliwave Co., Ltd.

To Whom It May Concern:

This is to request for a Class II Permissive Change for FCC Certified Transmitter Module FCC ID: 2AVCWMWC434M to add the following Host model numbers:

- HTC VIVE Focus 3
- PICO 4e
- PICO 4
- PICO neo 3

As these new hosts are portable hosts, RF exposure data to demonstrate compliance with the FCC requirement per 47 CFR 2.1093 for the host/ module combination has been provided to support this application. Testing for rf exposure was performed in accordance with FCC KDB guidance to provide a conservative set of measurements to cover all hosts listed above.

There are no changes to the module, therefore we are only addressing rf exposure requirements in this C2PC.

Verifications of continued compliance with the applicable FCC rules for the modular transmitter has been performed in accordance with FCC guidelines in KDB 996369 D04.

If you have any questions regarding this application, please feel free to contact me.

Sincerely yours,

Sheikh Hafiz
