

# 4001852 Air Pulse Stimulator+Vibration

## SPECIFICATIONS

Materials: ABS + Silicone

Storage Temperature: -5 - +60 C

Maximum Charging Current: 500mA

Battery: Li-Ion 3.7V

Battery Capacity: 450mAH

Charging Voltage: 5V

Charging Time: **approx 3hrs**

Operating Time: **approx 60mins**

Interface: USB

Functions: 11 Suction Intensities + 10 Vibration Patterns (Suction & Vibration functions can be used independently or together).

Instructions for Use:

- a. Press and hold  button for 1.5 seconds to turn on/off suction function.
- b. Short press  to increase suction intensity
- c. Short press  to decrease suction intensity
- d. Press and hold “~”button for 1.5 seconds to turn on/off vibration function.
- e. Short press “~”button to switch between 10 vibration patterns.

Charging: While charging, LED indicator blinks.

When fully charged, LED indicator is constantly on.

- [4001852 Air Pulse Stimulator +Vibration](#) Bluetooth function instructions

- f. Long press the "  " for 4 seconds to turn Bluetooth function ON, the LED keeps on flashing when the device is looking for a BT signal; when the device is already connected with Bluetooth, the LED will keep flashing.
- g. Long press the "  " for 4 seconds again to turn off Bluetooth function, then LED light will also turn off.

FCC Warning Statement Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
