ONE KEY CONTROL LOOP

NAME AND FUNCTION OF EACH PART

1. One-click operation
(1) Long press the key for 3 seconds to start the integrated mode (air pressure + vibration + hot compress + music)
(2) Press the key again to start clear mode (air pressure + hot compress + music)
(3) Continue to press the key to start sleeping mode (air pressure)
(4) Continue to press the key to start vitality mode (air pressure + vibration + music)
(5) Continue to press the key to start smart mode (hot compress + music)
(6) Press the button for 3 seconds to turn off the machine function
(7) Open the Bluetooth of your mobile phone and search the Bluetooth name: YBY. The devices will automatically connect.

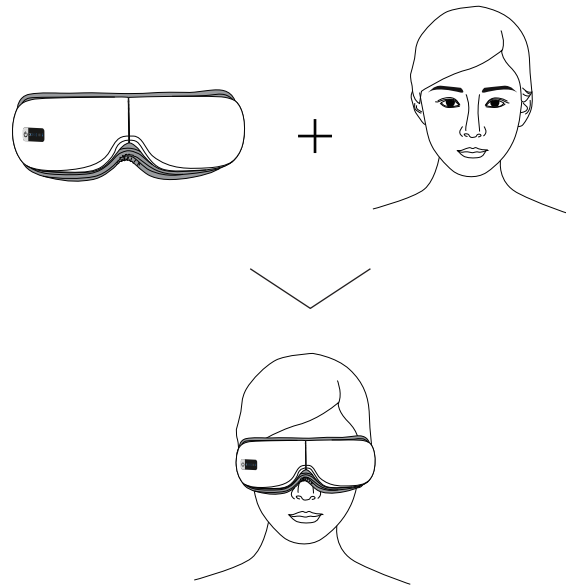

4

PRODUCT USAGE

Method of use

1. Preparation before use
(1) take out the eye massager gently
(2) put the eye massage device on the eye position
2. Usage (as shown)

Bluetooth Air pressure Hot compress vibration Music pause/play

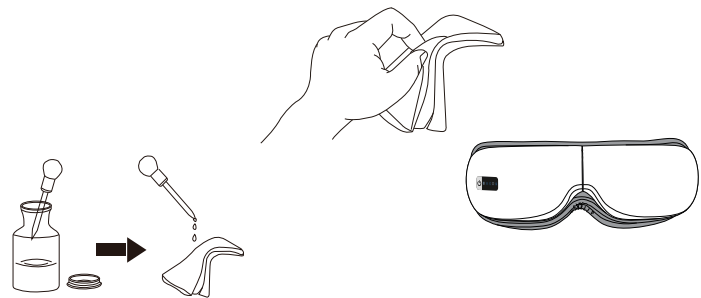

5

PRODUCT CLEANING, MAINTENANCE AND STORAGE

Product cleaning, storage and maintenance

1. Product cleaning and maintenance
If the product is dirty, please wipe it with a dry soft cloth.
If it is particularly dirty, you can wipe it with medical alcohol.

2. Keep
Keep it dry, ventilated and clean
Please keep out of reach of children
Do not disassemble the main engine without permission

6

COMMON FAILURES AND SOLUTIONS

Unable to boot:

1. If the battery power is too low, please charge immediately
2. Host protection (with electricity) connect the charger, charge, and allow the host to automatically remove the protection (charge for 5 seconds)
3. The battery is not charged and the charger is damaged
4. The pressure intensity is too weak

Note: all maintenance work must be done by our authorized maintenance personnel

PRODUCT SPECIFICATION

The product name	Eye massager
Automatic timing	15 minutes
The rated voltage	DC 5V
Rated power	3.4W
Power adapter	AC 100-240V DC5V

7

COMMON FAILURES AND SOLUTIONS

The fault	Possible cause of failure	The solution
Unable to boot	Low battery	Please charge immediately
	Motherboard protection (with electricity)	Connect the charger to charge, and allow the host to automatically remove protection (5 seconds after charging)
	The battery is not charged	Replace charger
	In charge	Unplug charger
The pressure is too weak	Low power	charging
Eye patch not hot	Low power	charging
	Model is wrong	Tune to the corresponding pattern

FCC Information

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
