

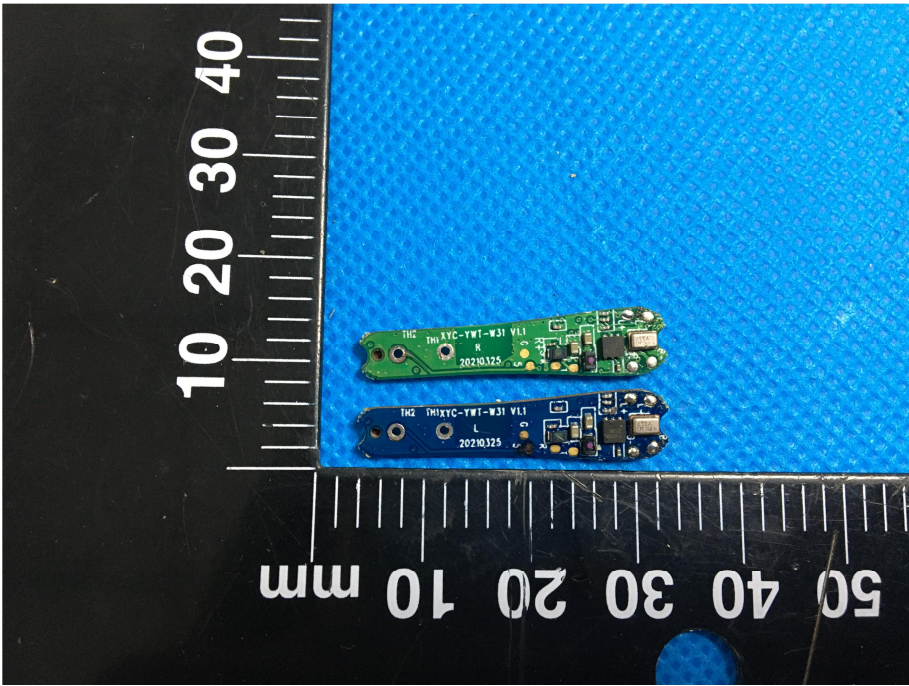

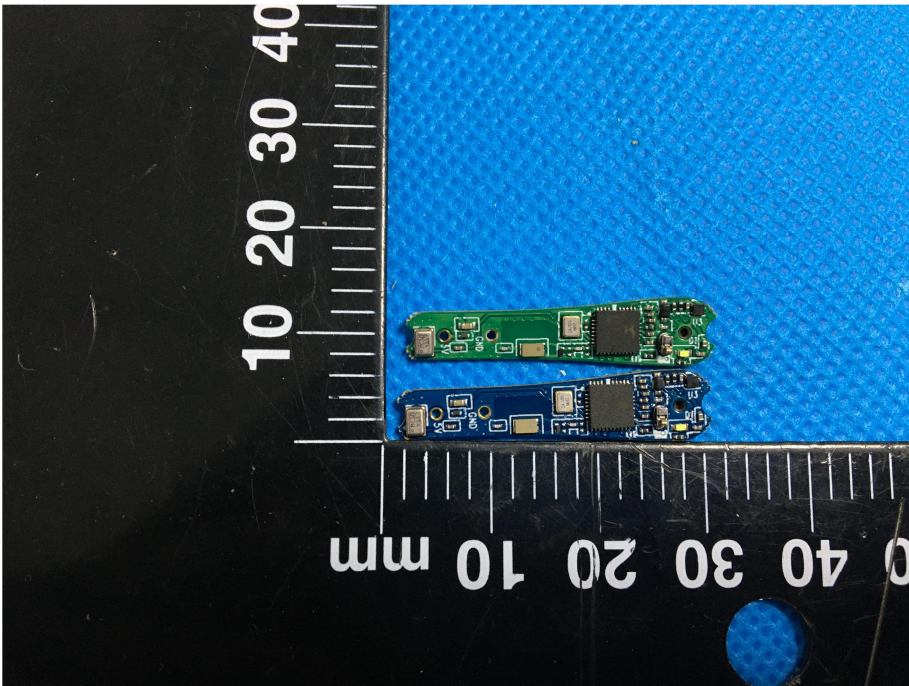

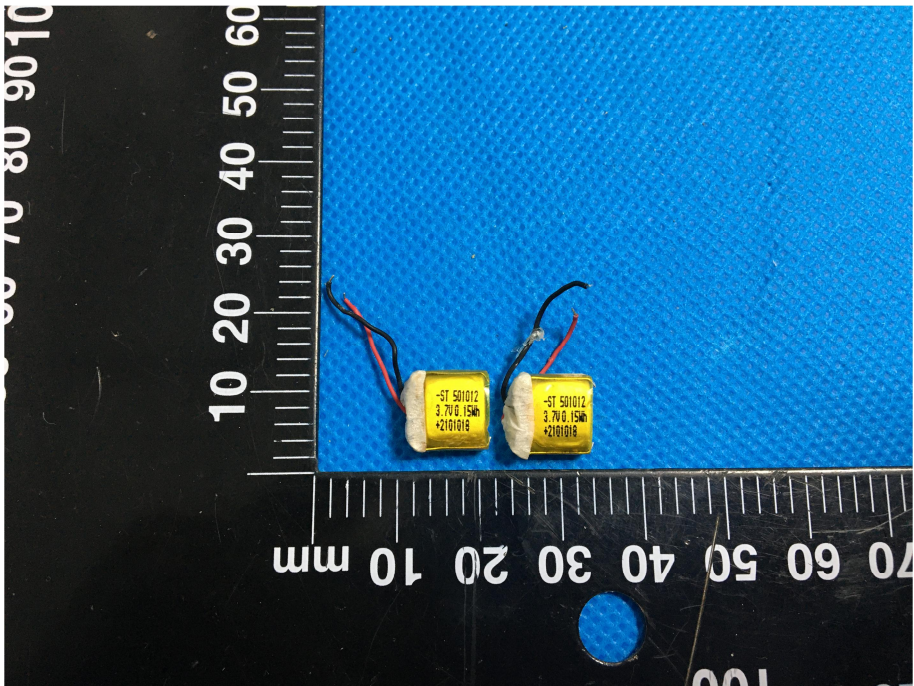

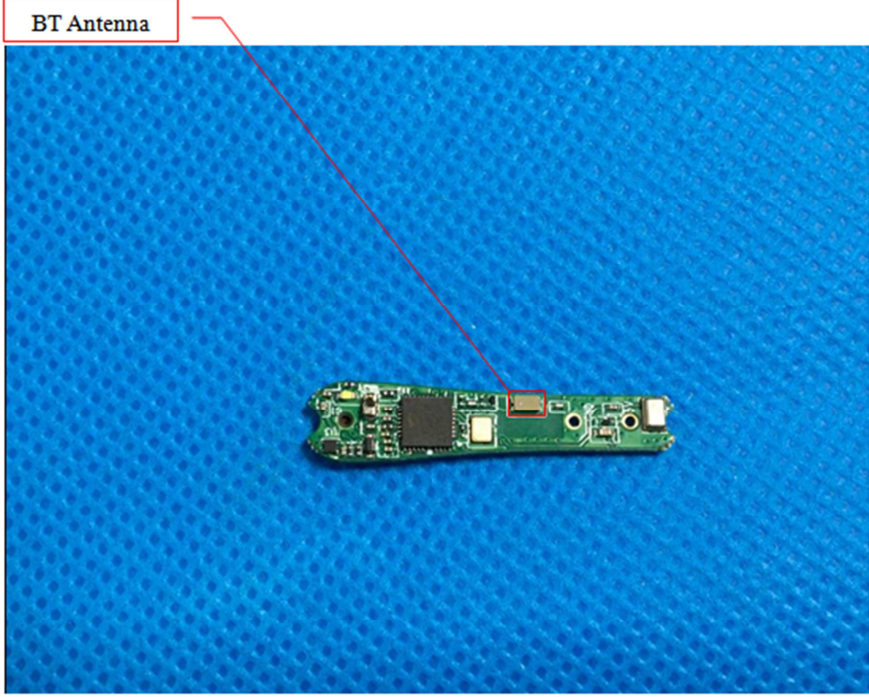

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p><b>EUT Housing and Board View 1</b></p>	 <p>This photograph shows four components of the EUT housing and board. On the left are two black, teardrop-shaped housings, one showing the green printed circuit board (PCB) inside. To the right are two silver-colored metal plates. A black ruler with white markings is positioned vertically and horizontally to provide scale. The background is a blue textured surface.</p>
<p><b>EUT Housing and Board View 2</b></p>	 <p>This photograph shows four components of the EUT housing and board, similar to View 1 but with different internal details. The two black housings on the left have their internal components exposed, including a yellow component. The two silver-colored metal plates on the right also show internal details. A black ruler with white markings is positioned vertically and horizontally to provide scale. The background is a blue textured surface.</p>

<p style="text-align: center;"><b>Solder Board-Component View 1</b></p>	
<p style="text-align: center;"><b>Solder Board-Component View 2</b></p>	

<p><b>Solder Board-Component View 3</b></p>	 <p>A photograph showing two yellow lithium polymer batteries with black and red wires. The batteries are placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the top edge marked from 0 to 100 and the bottom edge marked from 0 to 70. The batteries are positioned between the 10 mm and 30 mm marks on the top edge and between the 30 mm and 50 mm marks on the bottom edge.</p>
<p><b>Antenna View</b></p>	 <p>A photograph of a green printed circuit board (PCB) with various components. A red box highlights a small component on the board, and a red line points from this box to a label "BT Antenna" located in the top left corner of the image. The PCB is placed on a blue textured surface.</p>
