

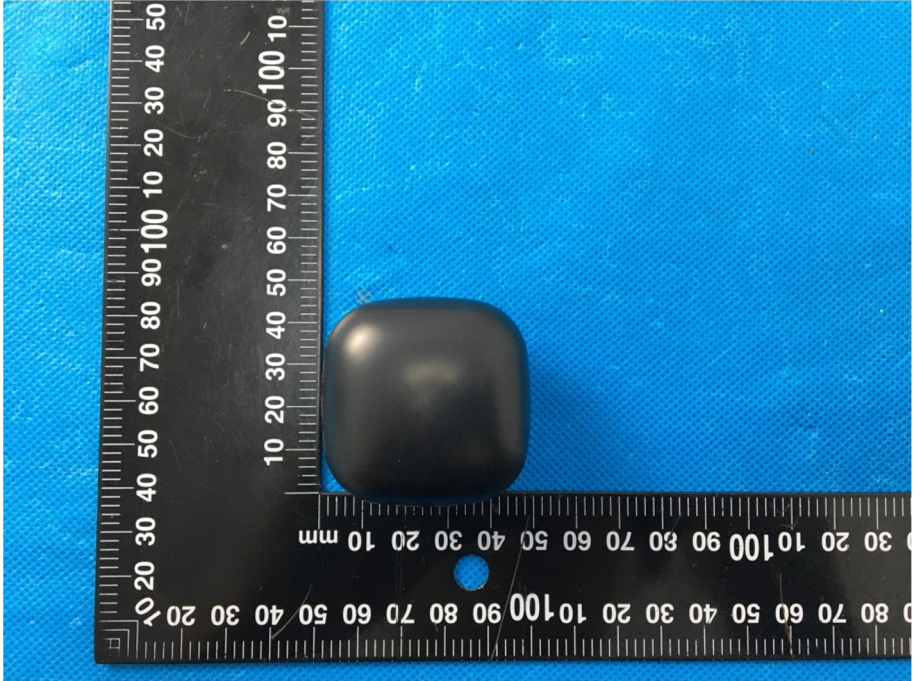

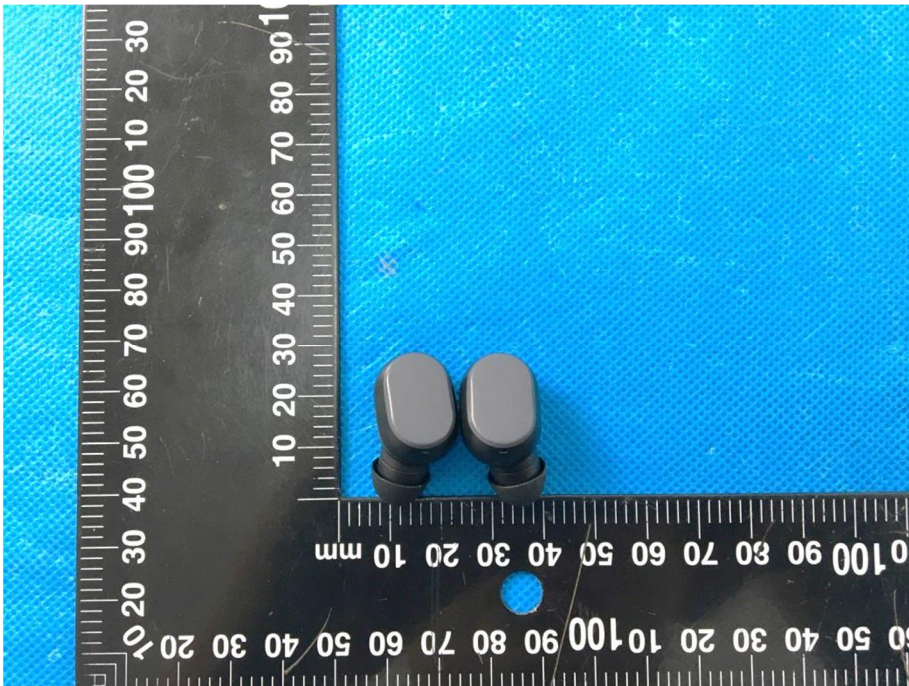

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

<p>EUT View 1</p>	 A photograph showing a black, rounded rectangular external unit (EUT) placed on a blue textured surface. A black L-shaped ruler is positioned next to the unit for scale. The ruler has markings in millimeters and centimeters. The unit is approximately 30 mm wide and 25 mm high. The ruler's vertical scale is on the left, and the horizontal scale is at the bottom.
<p>EUT View 2</p>	 A photograph showing the same black, rounded rectangular external unit (EUT) from a different angle, highlighting a horizontal slot on its front face. The unit is placed on a blue textured surface next to a black L-shaped ruler for scale. The ruler's vertical scale is on the left, and the horizontal scale is at the bottom. The unit is approximately 30 mm wide and 25 mm high.

<p>EUT View 3</p>	
<p>EUT View 4</p>	

<p>EUT View 5</p>	 A photograph showing two black earbuds lying on a blue textured surface. A black ruler with white markings is placed vertically to the left of the earbuds and horizontally below them. The vertical ruler shows markings from 0 to 100. The horizontal ruler shows markings from 0 to 100 mm. The earbuds are positioned between the 20 and 40 mm marks on the horizontal ruler.
<p>EUT View 6</p>	 A photograph showing two black earbuds lying on a blue textured surface, similar to View 5. A black ruler with white markings is placed vertically to the left and horizontally below. The vertical ruler shows markings from 0 to 100. The horizontal ruler shows markings from 0 to 100 mm. The earbuds are positioned between the 20 and 40 mm marks on the horizontal ruler.

<p>EUT View 7</p>	 A photograph showing two small, dark grey, oval-shaped components (likely electronic components) placed on a blue textured surface. A black ruler is positioned vertically and horizontally to provide scale. The vertical ruler on the left shows markings from 0 to 100 mm. The horizontal ruler at the bottom shows markings from 0 to 100 mm. The components are located approximately between the 30 mm and 50 mm marks on both axes.
<p>EUT View 8</p>	 A photograph showing two small, dark grey, oval-shaped components (likely electronic components) placed on a blue textured surface. A black ruler is positioned vertically and horizontally to provide scale. The vertical ruler on the left shows markings from 0 to 100 mm. The horizontal ruler at the bottom shows markings from 0 to 100 mm. The components are located approximately between the 30 mm and 50 mm marks on both axes.

<p>EUT View 9</p>	 A photograph showing two small, black, rectangular electronic components (EUTs) placed on a blue textured surface. A black ruler with white markings is positioned below the components for scale. The ruler shows markings in millimeters (0 to 100) and centimeters (0 to 10). The components are positioned between the 30 mm and 40 mm marks on the ruler.
<p>EUT View 10</p>	 A photograph showing a single black electronic component (EUT) placed on a blue textured surface. A black ruler with white markings is positioned below the component for scale. The ruler shows markings in millimeters (0 to 100) and centimeters (0 to 10). The component is positioned between the 30 mm and 40 mm marks on the ruler.
