

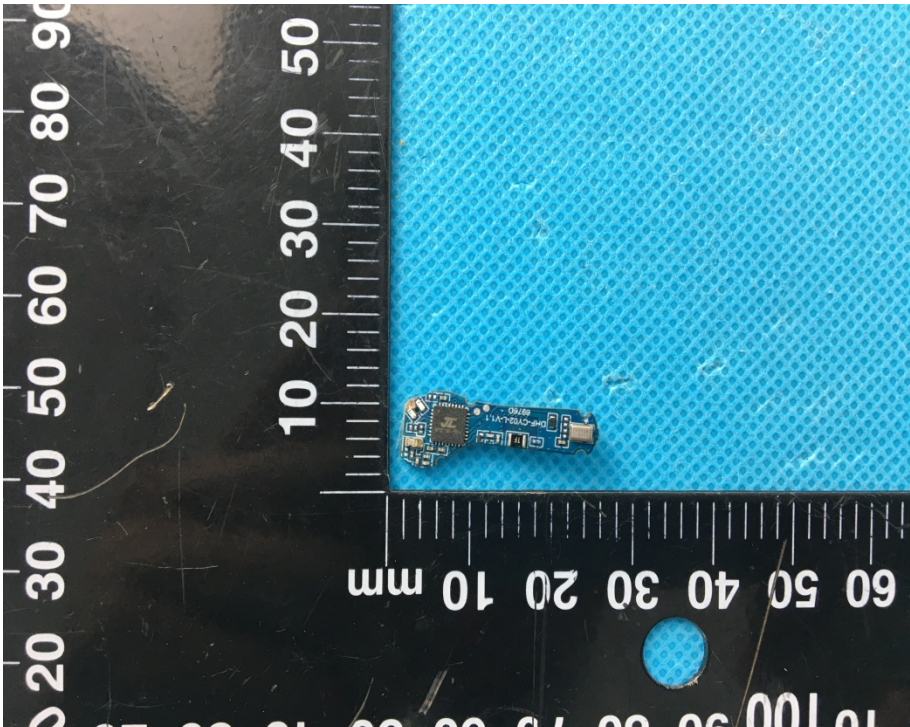

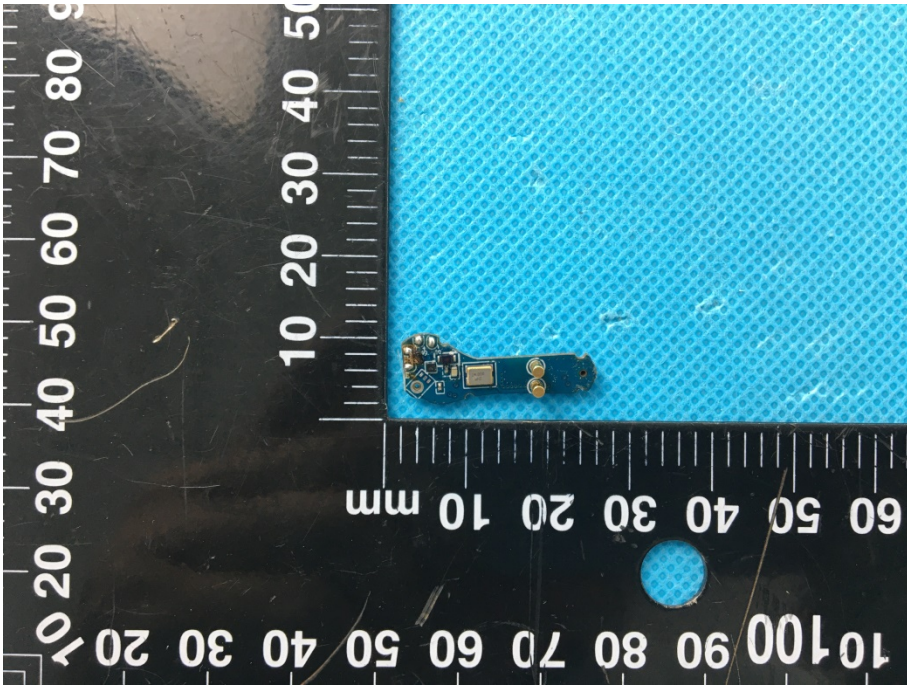

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 A photograph showing two small, white, U-shaped plastic components and a small blue printed circuit board (PCB) component. The components are placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the top edge marked from 0 to 100 and the bottom edge marked from 0 to 100. The components are positioned between the 40mm and 60mm marks on the ruler.
<p>Solder Board-Component View 1</p>	 A close-up photograph of a small blue PCB component soldered to a board. The component is positioned on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the top edge marked from 0 to 90 and the bottom edge marked from 0 to 100. The component is positioned between the 40mm and 60mm marks on the ruler.

<p style="text-align: center;">Solder Board-Component View 2</p>	 A photograph showing a small, rectangular blue printed circuit board (PCB) component. The component is positioned on a blue, textured surface. A black ruler with white markings is placed below the component for scale, showing measurements in millimeters. The ruler markings are visible on both the left and bottom edges of the image.
<p style="text-align: center;">Solder Board-Component View 3</p>	 A photograph showing a small, circular component, likely a battery or capacitor, with two thin wires (one red, one black) attached to it. The component is positioned on a blue, textured surface. A black ruler with white markings is placed below the component for scale, showing measurements in millimeters. The ruler markings are visible on both the left and bottom edges of the image.
