

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

**Conducted Emission
Test Setup**

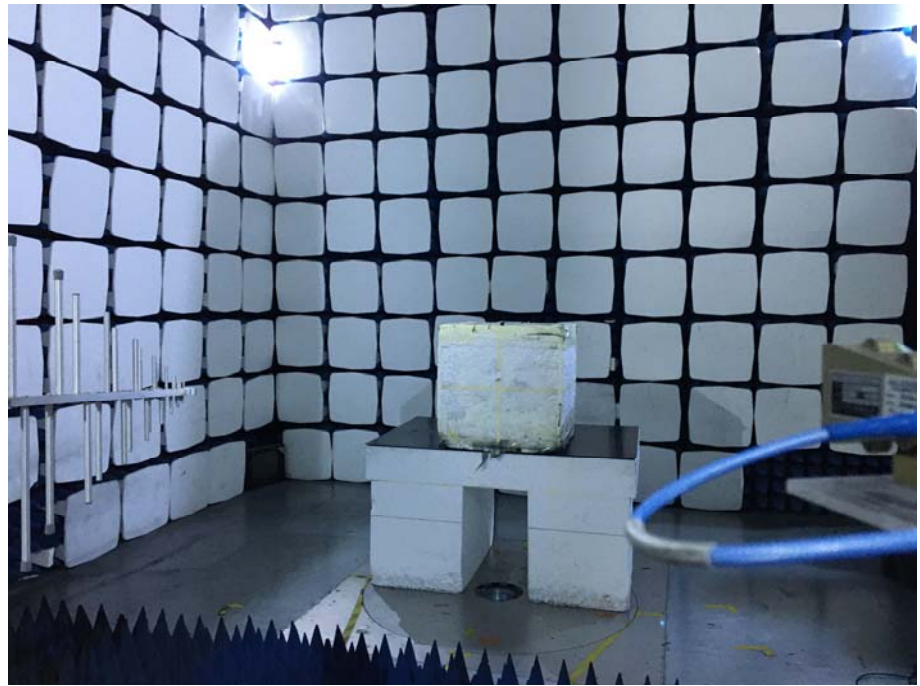

**Radiation Emission Test
Setup (Below 30MHz)**

<p>Radiation Emission Test Setup (30MHz to 1GHz)</p>	<p>A photograph of an anechoic chamber for radiation emission testing. The walls are covered with white, square-shaped electromagnetic absorbers. In the center, a white, rectangular test table is mounted on a circular turntable. The floor is marked with yellow and black safety lines. To the right, there is a metal railing and a ladder.</p>
<p>Radiation Emission Test Setup (1GHz to 18GHz)</p>	<p>A photograph of an anechoic chamber for radiation emission testing. The walls are covered with white, square-shaped electromagnetic absorbers. In the center, a white, rectangular test table is mounted on a circular turntable. A large, rectangular object wrapped in yellow tape is placed on top of the table. The floor is marked with yellow and black safety lines. To the right, there is a red object, possibly a piece of equipment or a sign.</p>

**Radiation Emission Test
Setup (Above 18GHz)**
