

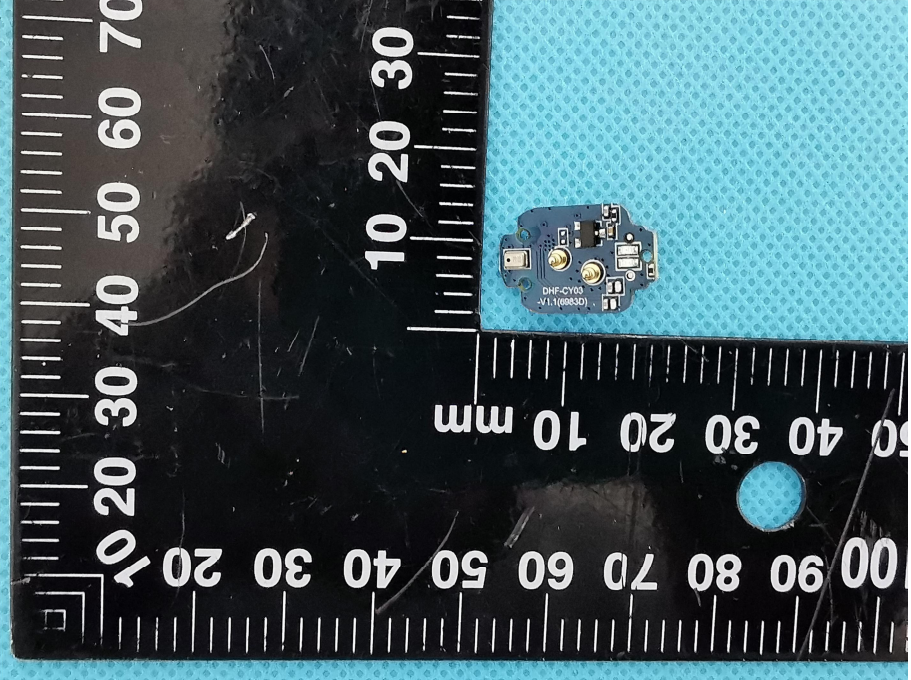

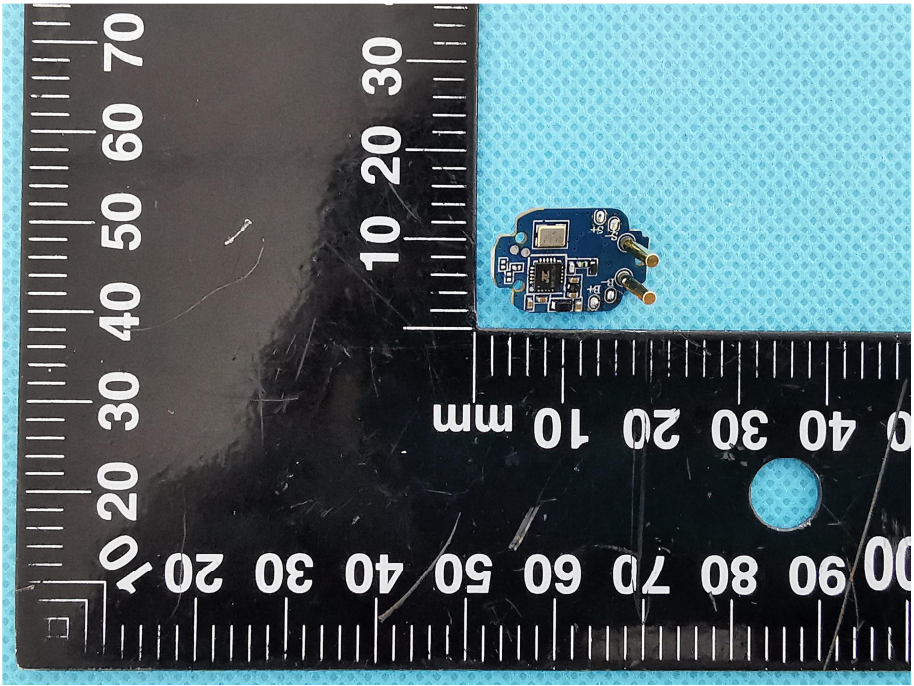

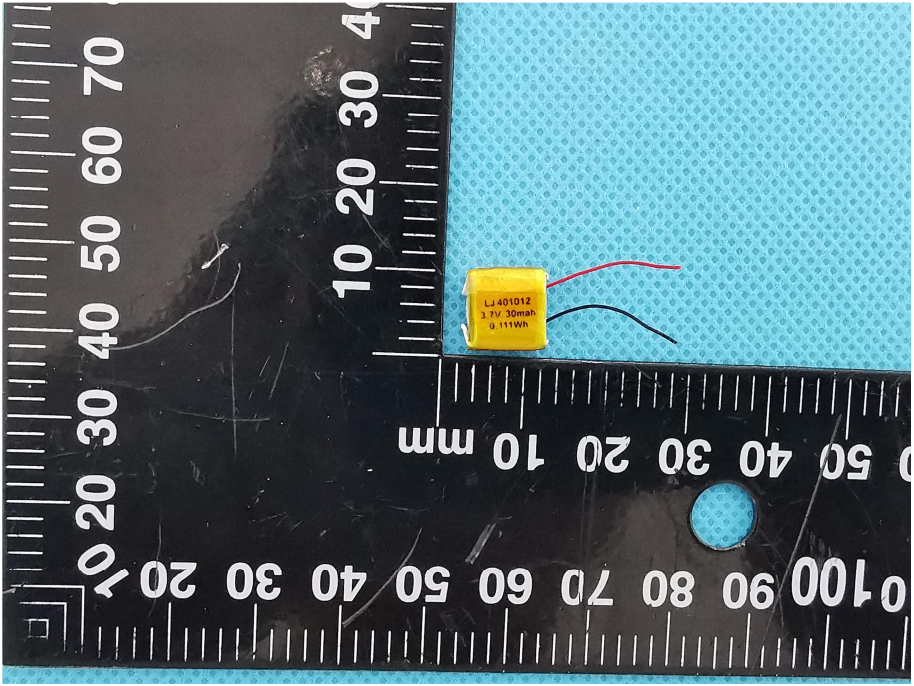

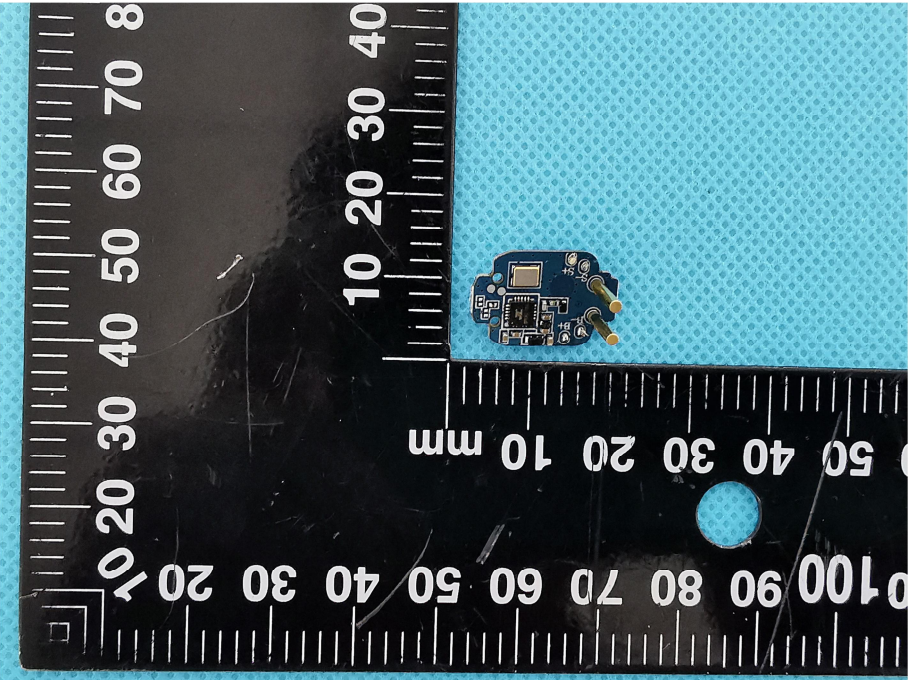

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

Left Earbud

<p>EUT Housing and Board View 1</p>	 <p>This photograph shows the internal components of the left earbud. It includes the black plastic housing, a small blue printed circuit board (PCB) with various electronic components, and a black earbud driver. The components are laid out on a blue textured surface next to a black ruler with white markings for scale. The ruler shows measurements in millimeters, with the top edge ranging from 0 to 100 mm and the bottom edge from 0 to 100 mm.</p>
<p>Solder Board-Component View 1</p>	 <p>This photograph provides a close-up view of the solder board-component. The component is a small blue PCB with various electronic components, including a microphone and a speaker. It is placed on a blue textured surface next to a black ruler with white markings for scale. The ruler shows measurements in millimeters, with the top edge ranging from 0 to 70 mm and the bottom edge from 0 to 100 mm.</p>

<p>Solder Board-Component View 2</p>	 <p>A photograph showing a small blue printed circuit board (PCB) component mounted on a black PCB. The component is positioned on a blue textured solder mask. A black ruler with white markings is placed below the component for scale, showing measurements in millimeters. The ruler has markings for 10, 20, 30, 40, 50, 60, and 70 mm. The component is approximately 10 mm wide and 10 mm high.</p>
<p>Solder Board-Component View 3</p>	 <p>A photograph showing a small yellow rectangular component mounted on a black PCB. The component is positioned on a blue textured solder mask. A black ruler with white markings is placed below the component for scale, showing measurements in millimeters. The ruler has markings for 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100 mm. The component is approximately 10 mm wide and 5 mm high. Two thin wires, one red and one black, are attached to the component. The ruler markings are oriented vertically.</p>

Right Earbud

<p>EUT Housing and Board View 1</p>	 A photograph showing the earbud housing and board. The housing is black and oval-shaped. The board is blue and contains various electronic components. A black ruler with white markings is placed next to the components for scale. The ruler shows measurements in millimeters, with markings every 10 mm and sub-markings every 1 mm. The background is a light blue textured surface.
<p>Solder Board-Component View 1</p>	 A close-up photograph of the solder board component. The board is blue and contains various electronic components, including a microcontroller and several resistors. A black ruler with white markings is placed next to the component for scale. The ruler shows measurements in millimeters, with markings every 10 mm and sub-markings every 1 mm. The background is a light blue textured surface.
