**EUT Housing and Board
View 3**

**Solder
Board-Component View
1**

<p style="text-align: center;">Solder Board-Component View 2</p>	 A photograph of a small, yellow PCB component with a circular component attached to its top left. The component is placed on a blue surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 40 mm and its width about 20 mm.
<p style="text-align: center;">Solder Board-Component View 3</p>	 A photograph of a larger, blue PCB component with various electronic components and a large black rectangular area. The component is placed on a blue surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 100 mm and its width about 40 mm.

<p style="text-align: center;">Solder Board-Component View 4</p>	 A photograph of a blue printed circuit board (PCB) component, likely a mobile phone's baseband or power management IC, placed on a black surface with a white ruler for scale. The ruler shows measurements in millimeters, with markings every 10 mm and sub-markings every 1 mm. The component is rectangular with various soldered connections and a small white label with a QR code and Chinese characters. The ruler is positioned vertically on the left and horizontally at the bottom.
<p style="text-align: center;">Solder Board-Component View 5</p>	 A photograph of a blue printed circuit board (PCB) component, similar to the one in View 4, placed on a black surface with a white ruler for scale. The ruler shows measurements in millimeters, with markings every 10 mm and sub-markings every 1 mm. The component is rectangular with various soldered connections and a small white label with a QR code and Chinese characters. The ruler is positioned vertically on the left and horizontally at the bottom.
