Connect the power adapter to the power supply after the camera is normally connected. The camera's network port indicator will show a green light when on.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference from authorized radio communication systems.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment can and does radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If interference does occur, you may wish to take the following steps to correct the interference, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Mounting

*Please use 8-core shielded network cable.

Before installation, please make sure that the equipment in the room is clean and that all units are properly grounded. The specific installation steps are as follows:
Step 1: Mount the camera on the wall.
Step 2: Connect the power supply and network cable.
Step 3: Connect the camera to the network.
Step 4: Power on the camera and check the status.
Step 5: Check the camera status.
Step 6: Check the camera status.
Step 7: Check the camera status.
Step 8: Check the camera status.
Step 9: Check the camera status.
Step 10: Check the camera status.

Get the iCam365 APP

Step 1: Scan the QR code to download the app.
Step 2: Add the camera to the app.
Step 3: Adjust the camera angle to the desired angle.

Special statement

This manual is for the Internet Bullet IP Camera. It is not applicable to other models. The manual may contain technical descriptions or illustrations with errors. The manufacturer is not responsible for any damage or loss caused by the use of the product. Please refer to the user manual for more information.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
