## Quick Guide

1. Press and hold the Capture Button for 2 seconds to power on. Enable the Bluetooth on the mobile phone to start searching and click "ITFIT Selfie P007" on the searched device list. The green indicator will go off after successful connection.
2. Go to Camera App mode and start to take selfies.

## User Notes

**Remote Control**  
Take the remote control from the selfie stick for long-distance photographing.

Press the Capture Button to take a photo or record a video (under the REC mode).

**Tripod**

Unfold the tripod in the bottom, push the extendable stick up and place the tripod on a flat surface.

**Power Off**

Press and hold the Capture Button for 3 seconds and the green indicator will flash for 3 times before going off.

**Preventive Measure**

Do not move the phone by force after it's clamped in case of damage to the phone shell.

## Reminders

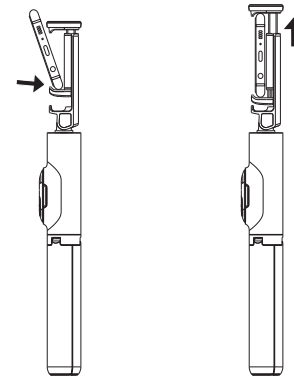

1. In case of no operation within 3 minutes after Bluetooth is connected, the selfie stick will automatically enter the Sleep Mode. Press the Capture Button again to restore connection. In the event of no operation after 6 hours in the Sleep Mode, the selfie stick will automatically power off.
2. In case of low battery during the use of the selfie stick, the indicator will turn red and flash. Please replace the battery in a timely manner.
