

Plan Ceibal

Quick Start Guide

Important Safety Precautions

- Do not disassemble the product; do not use alcohol, solvent or benzene to clean the surface of the product. Please contact us if you experience any problems.
 - This product should be charged for more than 12 hours when charging it the first three times.
 - Do not store the product in high temperature, humidity or dust; do not put the product in a vehicle with closed windows especially not during summer.
 - Avoid dropping or strong impact to the product, do not shake it violently, otherwise it may cause damage to the touch screen or display.
 - Please select the appropriate volume; the volume should not be too high when using headphones; if you feel signs of tinnitus, please turn down the volume or stop using the product.
 - Please charge the product when:
 - a. The battery icon shows low power.
 - b. The system is automatically shut down. (The system will shut down automatically when the battery is low.)
 - c. There is no response when clicking buttons.
- Note:** Please only use the adapter delivered with the product to charge the tablet. No other chargers can be used – risk of fire!
- Please do not disconnect the machine when it is formatting or uploading/downloading, otherwise a program error may occur.
 - When improperly being shut down, the machine will scan and repair the disk on reboot. This process may take a few minutes.
 - The company is not responsible for memory loss caused by damaging or repairing the product or other reasons stated. Please follow the instructions of this manual when using the tablet.
 - Do not use the product in places where the use of electronic devices is prohibited; e.g. an aircraft
 - Please do not use the product when driving or walking. It may cause an accident.
 - This machine is not water resistant.

Tablet Overview

Tablet Introduction

This chapter describes the appearance of the tablet, including its buttons and ports; it will guide you to understand the features and accessories.

- (1) Rear Camera
- (2) Power
- (3) Volume +/-
- (4) Micro USB port
- (5) Earphone jack
- (6) MicroSD port
- (7) Microphone
- (8) HDMI

Note:

- 1) Clicking and dragging are performed using the LCD touch screen. Please do not use pens, pencils or other sharp objects to click on the screen to avoid scratching.
- 2) Please keep the speakers clean to avoid them being blocked by dirt and affecting the sound quality.
- 3) The antenna and the type label are located at the back of the tablet. Please do not cover the back with metal objects to avoid poor signal strength.

Charging

This product uses a standard 5 V/2 A power-supply. This consists of 2 parts: Power plug and charging cable. You can load your device with it over the network connection or host powered by a computer.

Please use the supplied power charger. Other chargers may cause failure and risk of fire.

Do not use the charger in a wet environment. If your hands and feet are wet, please do not touch the charger.

When using the charger or charging the product, please maintain good ventilation. Do not cover the machine with paper or other objects. This could result in a reduced cooling effect.

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Specific Absorption Rate (SAR) information:

This device meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of Tissue.

Body-worn Operation

This device was tested for typical body operations. To comply with RF exposure requirements, a minimum separation distance of 0 mm for body can be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

Precaución FCC.

El dispositivo cumple con la Parte 15 de la reglamentación FCC. La operación está sujeta a las siguientes dos condiciones: (1) Este dispositivo no puede causar interferencias nocivas, y (2) este dispositivo debe aceptar cualquier interferencia recibida, incluida la interferencia que pueda causar un funcionamiento no deseado.

Si este dispositivo causa interferencia nociva en la recepción de radio o televisión, lo cual se puede determinar encendiendo y apagando el dispositivo, se exhorta al usuario a tratar de corregir la interferencia mediante alguna de las siguientes formas:

- Reorientar o reubicar la antena de recepción
- Incrementar la distancia entre los equipos.
- Conectar este dispositivo a un tomacorrientes diferente al que está conectado el equipo receptor.
- Consultar al distribuidor o a un técnico especializado de radio o TV.

Cualquier cambio o modificación no aprobada expresamente por la parte responsable del cumplimiento, puede anular la autoridad del usuario para operar el equipo.

Información sobre la Tasa Específica de Absorción (SAR por sus siglas en inglés):

Este dispositivo cumple con los requisitos del gobierno estadounidense para la exposición a las ondas de radio. Las directrices se basan en normas elaboradas por organizaciones científicas independientes, mediante una evaluación periódica y exhaustiva de los estudios científicos. Los estándares incluyen un margen de seguridad sustancial diseñado para asegurar la seguridad de todas las personas independientemente de su edad o salud.

Información y Declaración de exposición de RF de FCC

El límite de la tasa específica de absorción para los Estados Unidos es de 1.6 W/Kg en promedio sobre un gramo de tejido.

Operación cerca del cuerpo

Este dispositivo fue probado para las operaciones típicas del cuerpo. Para cumplir con los requisitos de exposición a RF (radio frecuencia), puede mantenerse una mínima separación de 0 mm entre el cuerpo del usuario y el dispositivo, incluida la antena. Clips para cinturón, fundas y accesorios similares utilizados en este dispositivo no deben contener ningún componente metálico. Los accesorios del cuerpo que no cumplan estos requisitos pueden no cumplir con los requisitos de exposición a RF (radio frecuencia) y deben ser evitados. Utilice únicamente la antena suministrada o una aprobada.
