MFC OFFLINE VCM

FP0809

1 Keyboard

1.1 Long press to pair box

1. The box is powered on, and the blue LED lights on to enter the pairing mode

2. Press and hold the offline voice button for 3 seconds until it flashes.

If the pairing is successful, the LED light stops flashing and turns on. If pairing fails, the blue LED light turns off. Repeat the steps until pairing is successful

1.2 Short press to stop function

Click the Press button to stop all actions

2. Command Function

To activate VCM, say the wake words, " hello jarvis." The LED light on the device lights up green and the Voice Command Module responds with a " I' m here "

NOTES:

The VCM is set in silent as its default mode.

When the voice feedback is turned on and after every successful command, the VCM responds with "I am here."

Within 20 seconds, say the voice command to control your bed. Your adjustable bed beeps again and adjusts according to a valid voice command.

NOTE: It is not necessary to repeat the wake word. The VCM responds automatically when given a different command.

To toggle through the wake words, say " switch name to Jarvis/pete/ tony/ david/ coco/ martin." The

Voice Command Module responds with " Jarvis/pete/ tony/ david/ coco/ martin is ready you can say

hello Jarvis/pete/ tony/ david/ coco/ martin to wake me up."

ISED RSS Warning:

This device complies with Innovation, Science and Economic Development Canada licence exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'ISED applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

FCC Statement:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
