## Getting Started

1. Plug the adaptor into a standard household outlet, you will see 12:00 on the display and the clock is ready to be set.
2. Please remove the battery tab before use.

## Notice :

- If the display is "blank" after plugging in, please check whether the DISPLAY DIMMER on the back is at the HIGH position.
- Under the battery power, the display will go blank and preset alarm will not go off. Battery backup is for saving TIME and ALARM settings only.
- Please extend the FM antenna on the back of the clock.
- If you press any button, all the buttons will light up and then turn off automatically after 5 seconds.

## Time Setting

1. Press the " 🕐 " button to enter HOUR setting. The HOUR digits will flash on the display. Press " ▮◀ " or " ▶▮ " button to advance to the correct hour.

HOUR Flashes ⎯⎯⎯ 12:00
2. Press the " 🕐 " button to confirm and enter MINUTE setting. When the MINUTE digits flash, press " ▮◀ " or " ▶▮ " button to advance to the correct minute.

MINUTE Flashes
3. Press the " 🕐 " button to confirm and enter time format (12/24H) setting. Press " ⏮ " or " ⏭ " button to select time format. When using the 12-hour time format, AM/PM icon will appear on the display to suggest morning/afternoon time.

4. Press the " 🕐 " button to confirm and exit the time setting mode.
### Notice:

The clock will exit automatically from the TIME setup mode if no action is taken within 5 seconds.
(Action refers to pressing the desired button for setup)

## Alarm Setting

1. Press the " 🔔 " button to enter ALARM HOUR setting. The HOUR digits will flash on the display. Press the " ▮◀ " or " ▶▮ " buttons to advance to the desired hour.

HOUR Flashes
