Finland

Regarding: FCC Class II Permissive Change  
FCC ID: 2AVNR-RPI3BP

We, Noiseless Acoustics Ltd. hereby declare that the intention of this Class II Permissive Change is to change the grant from mobile module to portable module in order to authorize the module for use in a handheld device. We have done some hardware modifications to the module for integration purposes, although, they do not involve the RF circuitry.

Hardware changes:

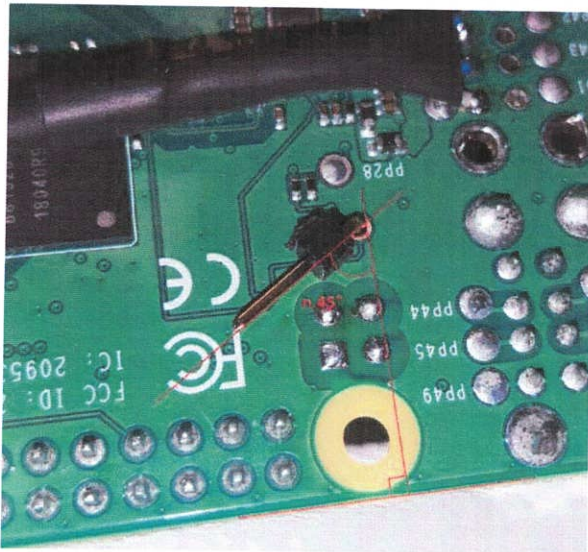

- **1. Removed connector JP11 and PoE**

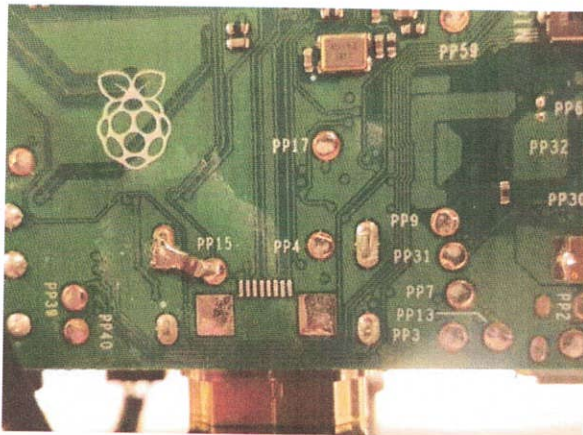

- 2. added cable to the pads of the connector J11

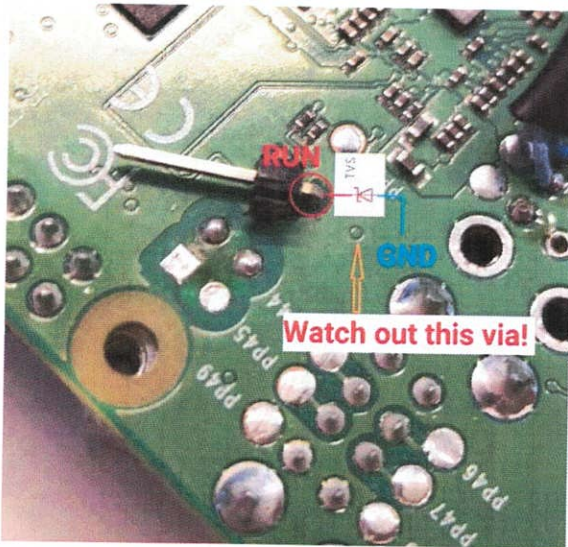

- 3. added header for the RUN-signal to its designated place

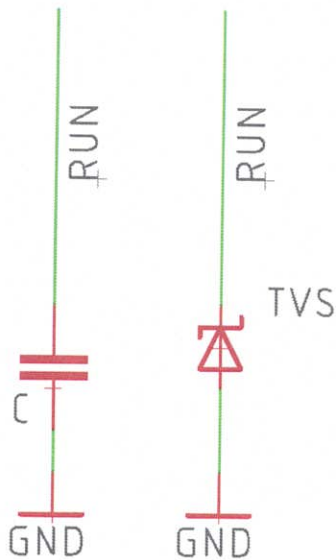

- 4. added signal protection components to RUN signal.

The capacitor will be soldered to PP15 and GROUND-pin nearby

The placement of the TVS diode nearby the pin header

The schematics of the signal protection components of the run signal.

Should you have any comments, please have my best attention. Thank you.

Sincerely,

Jonas Nyberg  
CTO
