

A2D0US: Regulatory Information

Safety Information

- Read all Safety Instructions before installation.
- **FAILURE TO FOLLOW THESE SAFETY INSTRUCTIONS COULD RESULT IN FIRE, ELECTRIC SHOCK, OR OTHER INJURY, OR DAMAGE.**
- Use the power supply provided with the palm reader or an approved power supply that complies with IEC 62368-1.
- Power the palm reader with the USB hub and the proprietary cable provided.
- The device is for indoor use only.
- Plug the power supply directly into a power outlet.
- Do not use the power supply if it is broken, damaged or prongs are damaged.
- Do not use the power supply in wet or damp locations.
- Do not use the power supply if the power cable is broken, damaged or fried.
- The device contains Li-metal coin cell that is not serviceable.
- The USB hub shall be mounted at a height less than 2 m (6 ft).

United States

Responsible party (contact for FCC matters only): Nalloy LLC, 859 Willard Street, Suite 400, Quincy, Massachusetts 02169

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: —Reorient or relocate the receiving antenna. —Increase the separation between the equipment and receiver. —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. —Consult the dealer or an experienced radio/TV technician for help.

Modifications not expressly approved by Nalloy LLC for compliance could void the user's authority to operate the equipment

To meet RF exposure requirements, this device needs to be placed at least 20 cm away from the body of the user as well as other radio antennas.

Laser Information

This product complies with FDA performance standards for laser products except for conformance with IEC 60825-1:2014, as described in Laser Notice No. 56, dated May 8, 2019.

CAUTION - The device is designed to remain within Class 1 laser limits in accordance with IEC 60825-1:2014 under all normal conditions for intended use and foreseeable fault conditions. Tampering with, repair or disassembly of the device, or use of focusing optics may increase the exposure of laser emission to a hazardous level.

CLASS 1 LASER PRODUCT
(IEC 60825-1:2014 Ed. 3)

Exempt Group LED Information

This product complies with IEC 62471 EXEMPT GROUP LED illumination.

Product Information

- **USB Hub:**
 - Model Number: KQGB0L
 - Input: 15 VDC, 2 A
 - Power Supply
 - Model: MDS-030AAC15
 - Input: 100-240 VAC, 0.6-0.8 A, 50/60 Hz
 - Output: 15 VDC, 2 A, 30W, LPS
- **Palm Reader:**
 - Model: A2D0US
 - Input: 15 VDC, 2A
