## Model Differences Letter

**IC: 25864-04610242**

**FCC ID: 2AVOV-04610242**

**Mod: 04610242**

The 1509 family of products for North America market is composed by following HVINs:

- ✓ 04610242
- ✓ 04610243

The only difference between them is:

04610242 Main model. See [04610242.pdf](#)

04610243 The same as the Main model but without DRL function and without L13 LED. See [04610243.pdf](#)

Both HVINs have same hardware, same enclosure, same radio features.

A daytime running lamp (DRL, also daytime running light) is an automotive lighting device on the front of a road-going motor vehicle.

DRL function is not relevant for testing so only mod. 04610242 has been tested.
