

## Model variant description

This document concerns MC001 & MC002 products (FCC ID: 2AVPG-MCX)

The range is made up of 2 casing and different connections. The differences between these products are:

### CASING:

- The color, MC001 is the blue one and MC002 is the yellow one.
- The casing mounting ears are slightly different (see pictures below).

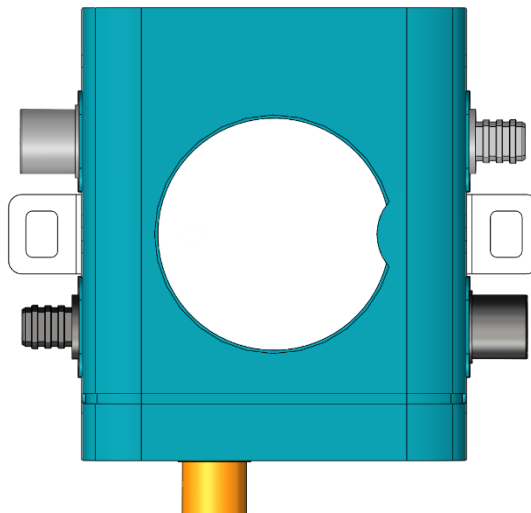

### CONNECTIONS:

- Direct connection or cable connection + connector (MC001 has only connectors, MC002 has 3 connectors and 2 short wires (170mm) with connector at their end)

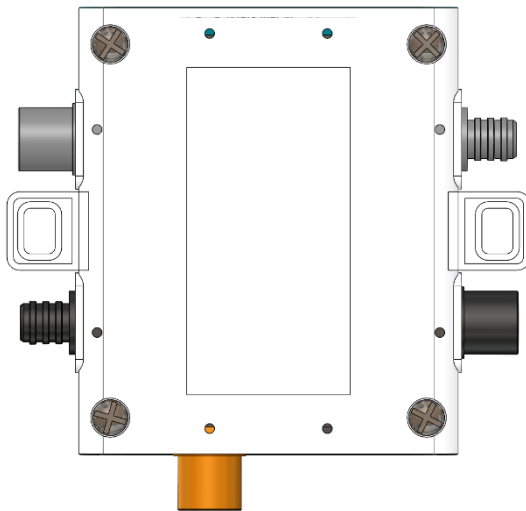

### COMMON POINTS:

- The material remains the same (independently of the color).
- The printed circuit board (PCB), the position of the connectors and the components are strictly identical whatever the color.

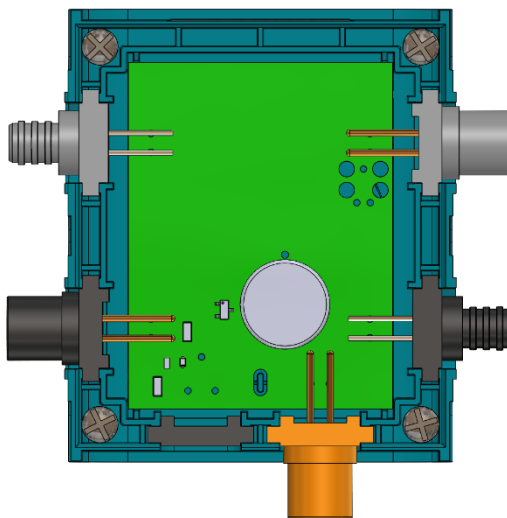

### MC001 : Blue one
