Overview

Display

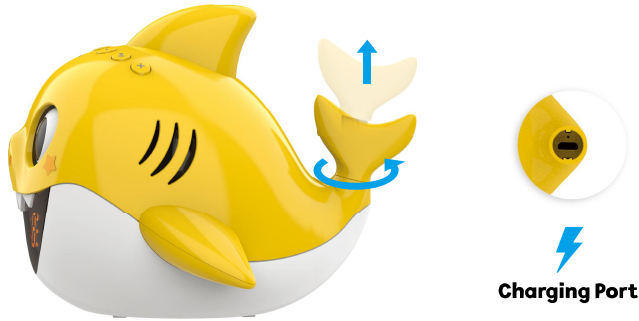

-  **Snooze Indicator** 05:45 **Time**
-  **Wake Up Setup** AM PM **AM/PM Indicator**
-  **Sleep Setup**  **Alarm**
-  **Parent Lock Status**  **Bluetooth®**

 **To adjust display brightness, press and hold the Snooze button to adjust from 100% - 0%.**

Charging

- 1 To charge your Baby Shark Alarm Clock, gently twist the tail counterclockwise and pull up to access the charging port.

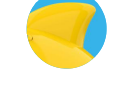

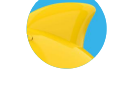

- 2 Insert the included Micro USB Cable to charge your Baby Shark Alarm Clock. Plug the other end of the cable into a wall adapter (not included).
- 3 The display will show "LO" when the Baby Shark Alarm Clock needs to be charged.

- Charge your Baby Shark Clock for 3-3.5 hrs. The red light on the tail will turn off to indicate that the clock is fully charged. A fully charged battery will last approximately 12 hours.

Buttons

-  **Bluetooth®/Setup Button** - Press to set up Bluetooth® wireless connection, Alarm Song & Snooze Sound.
-  **Clock Button** - Press to set up Clock Time, Sleep Time and Wake Time. On main screen, press twice to turn on/off alarm.
-  **Previous/Next** - Press once to skip to the next track. Press twice to return to the previous track.
-  **Brightness** - Press and hold to adjust brightness of clock display and eyes.
-  **Power Button** - Press and hold to turn the clock ON/OFF.
-  **Sleep Sounds** - Press to turn on sleep sounds. Press again to set sleep sounds timer to 15, 30 or 60 minutes, respectively. Press once more to turn off sleep sounds.
-  **Volume Down** - Press to decrease volume.
-  **Pause & Play** - Press to pause/play music. Press and hold to turn on/off Parent Lock.
-  **Volume Up** - Press to increase volume.
-  **Snooze Button**
(Alarm ENABLED) Press to snooze for 10 minutes.
(Alarm DISABLED) Press to play Baby Shark song.
-  **Night Light** - Press and hold to adjust night light brightness from 100% - 0%.

Clock Setup

1 Press the Clock button  to enter Clock settings. You will hear the "Clock Setup" voice prompt.

2 Use the **-** and **+** buttons to adjust the desired time.

3 Use the  button to confirm your hour and minutes selection.

4 Press the Clock button  to save settings and move to the next setup option.

Press and hold the Clock button  to save and exit all settings.

 On the main screen, press the Clock button  twice to turn on/off the alarm.

Sleep Trainer Setup

Create customized sleep and wake times to help little ones learn to stay in bed through the night!

Baby Shark Alarm Clock's default settings are as follows:

- Default clock time is 9:00am; sleep time is 10:00pm; wake time is 8:00am.
- Should you choose to only set the desired sleep time, the wake time will remain at the 8:00am default.
- Should you choose to only set the desired wake time, the sleep time will remain at the 10:00pm default.

1 Press the Clock button  to enter Clock settings.

2 Press the PREV/NEXT button  until you hear the "Set Up Sleep Time" voice prompt.

Note: Display will show "SLP" with a  icon.

3 Use the **-** and **+** buttons to adjust the desired Sleep Time.

Sleep Trainer Setup (Continued)

4

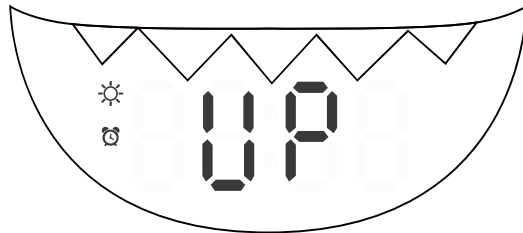

Press the Clock button  to save settings and move to the next setup option.

Press and hold the Clock button  to save and exit all settings.

5

Once sleep time is confirmed, you will hear a "Set Up Wake Time" voice prompt.

Note: Display will show "UP" with a  icon.

6

Use the **-** and **+** buttons to adjust the desired Wake Time.

7

Press the Clock button  to save settings and move to the next setup option.

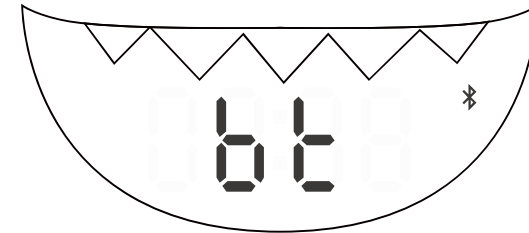

Press and hold the Clock button  to save and exit all settings.

7

Bluetooth® Setup

1

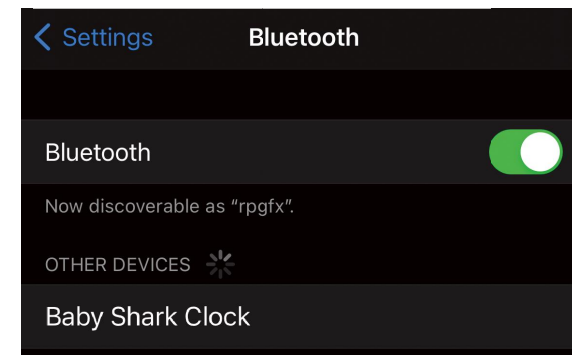

Press the Bluetooth®/Setup button  button to connect a Bluetooth®-enabled device to the clock. You will hear "Bluetooth® Setup" and "Searching" voice prompts.

The Bluetooth® icon on the display will blink until a device has been paired.

2

Enter Bluetooth® settings on your smartphone or other Bluetooth®-enabled device, and search for "Baby Shark Clock". Tap to connect to Bluetooth®.

Note: If connected to Bluetooth® and you choose to change alarm or snooze sounds, Bluetooth® will automatically disconnect. Follow the steps above to reconnect to your Bluetooth®-enabled device.

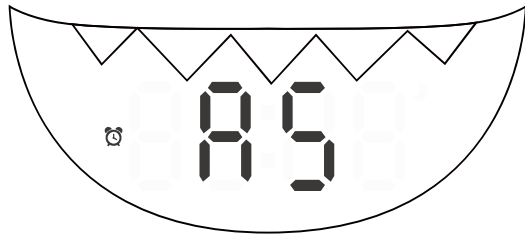

8

Set Up Alarm Song

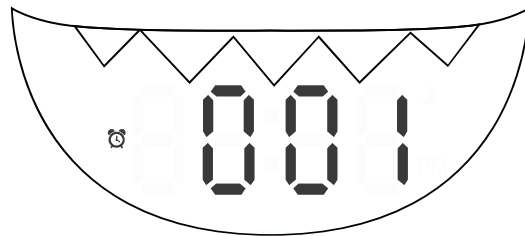

1 Press the Bluetooth®/Setup button  to enter Clock settings.

2 Press the PREV/NEXT button  until you hear the "Set Up Alarm Song" voice prompt.

Note: Display will show "AS".

3 Use the **-** and **+** buttons to select an alarm song.

4 Press the Bluetooth®/Setup button  to save settings and move to the next setup option.

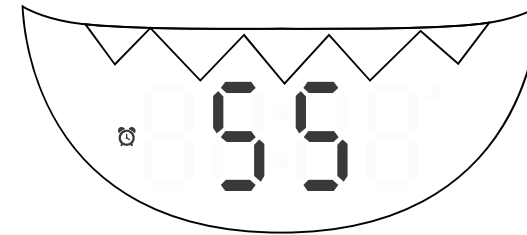

Press and hold the Bluetooth®/Setup button  to save and exit all settings.

Set Up Snooze Sound

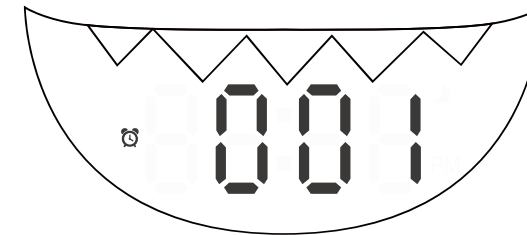

1 Press the Bluetooth®/Setup button  to enter Clock settings.

2 Press the PREV/NEXT button  until you hear the "Set Snooze Sound" voice prompt.

Note: Display will show "SS".

3 Use the **-** and **+** buttons to select a snooze sound.

4 Press the Bluetooth®/Setup button  to save settings and move to the next setup option.

Press and hold the Bluetooth®/Setup button  to save and exit all settings.

Clock Status

BEDTIME

Half an hour before the set sleep time, the Baby Shark Clock will close its eyes halfway, indicating that it's time to get ready for bed.

SLEEP

Set the desired sleep time and every night, the Baby Shark Clock will go to sleep with your kids. The Baby Shark Clock keeps its eyes closed through the night so your kids know to stay in bed.

PLAY

Half an hour before the desired wake time, the Baby Shark Clock will open its eyes halfway and glow. Teach your little ones to play quietly until the light turns green!

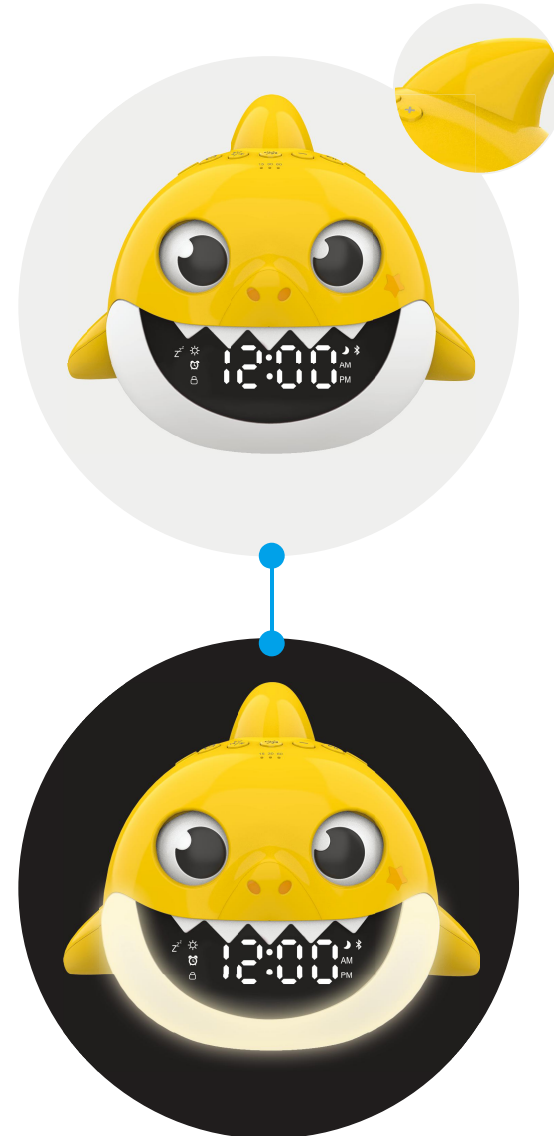

WAKE

Set the desired wake time and the Baby Shark Clock will start glowing and singing the Baby Shark Song. The green light will stay illuminated for one hour in case your children sleep in!

Night Light

Press and hold the shark's fin  to adjust night light brightness from 100% - 0%.

Play Time / Parent Lock

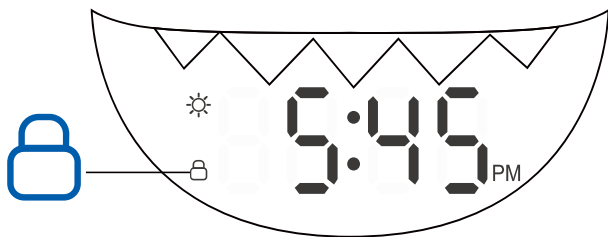

-  Press the shark's fin to play the Baby Shark song. Press again to stop the song.
-  Press the shark's fin twice to turn off the light show.
-  Press the PREV/NEXT button  to play other preloaded tunes.

NOTE: Baby Shark light show plays by default.
WARNING: Flashing lights

Turn on Parent Lock to avoid accidental settings changes. Press and hold the Pause/Play button  to enable Parent Lock. Press and hold again to disable Parent Lock.

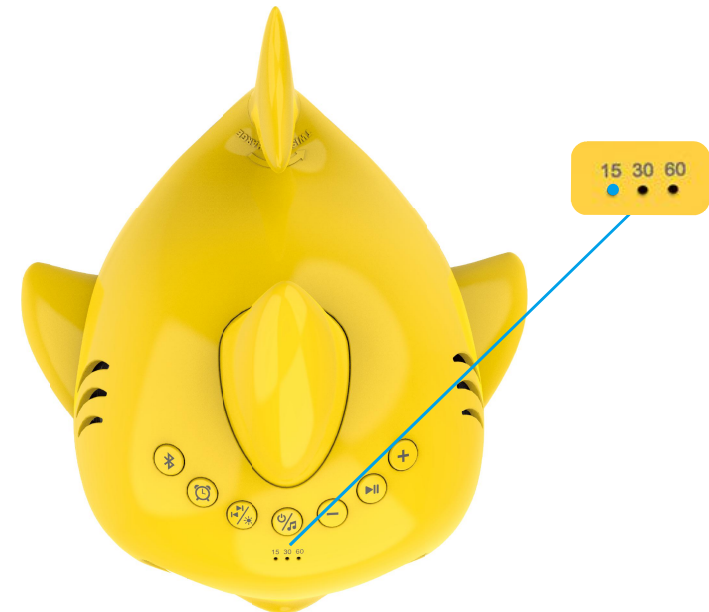

Note: All button functions will be disabled when Parent Lock is on.

Sleep Sounds

To play sleep sounds, simply press the Sleep Sounds button. Press the PREV/NEXT button to switch between sleep sounds.

Press the Sleep Sounds button  again to turn on the timer. The blue light indicator will turn on, allowing you to set the timer to 15, 30 or 60 minute intervals.

Note: Sleep sounds will remain on loop unless a timer is set. To turn off sleep sounds, press the Sleep Sounds button  again after the 60 minute timer is enabled.

For customer support regarding your device, please submit a request by emailing support@dpaudiovideo.zendesk.com. You will be provided a ticket number regarding your inquiry, which you can refer to when contacting us further.

You may also reach a DP AV customer service representative by calling **1-833-909-2673**. We are available Monday - Friday, 9am - 5pm PST, except major holidays. DP AV strongly urges customers to email their inquiry prior to calling, as this will enable us to better assist you.

Please make sure to note the model number and a description of your inquiry.

Thank you for purchasing a Pinkfong Baby Shark product.

Warranty Information

Limited Warranty

DP AV (the "Company") warrants this new product purchased and contained in this package (the "Product") against defects in material or workmanship for 90 Days (Parts & Labor) and 1 Year (Limited). In order for the Company to honor this limited warranty, you must present a valid proof of purchase (i.e. a receipt) of this Product. **IMPORTANT NOTE:** The customer is encouraged to carefully inspect the Product upon receipt after purchase – especially prior to any assembly, disassembly, mounting, installation or utilizing a third-party product of any kind, such as a decorative or protective cover or case.

This warranty is void if the Company deems, in its discretion, that the Product may have been damaged when the packaging was opened, through modification, improper transport, improper storage, improper use, improper assembly or disassembly, exposure to adverse elements, mounting or other installation, end user negligence, water damage or tampering of the barcode of the Product. This warranty does not apply: (a) to cosmetic damage, including but not limited to screen damage, a cracked display, scratches, dents and broken ports; (b) to damage caused by accident, abuse, misuse, fire, water vapor exposure, excessive exposure to humidity, water or other liquid contact, earthquake or other external cause; (c) to defects caused by normal wear and tear or otherwise due to the normal aging of the product; (d) if any serial number has been removed or defaced from the product; or (e) to damage caused by installation or mounting, assembly or disassembly, use with a third party device, cable, protective or decorative cover/case, component or product that does not meet the Company's product specifications. This warranty is a limited warranty for repair of the Product or replacement of the Product with a new or refurbished product, subject to the conditions set forth herein.

The Company is not liable for consequential, indirect, incidental, special or punitive damages and the Company's total liability hereunder shall not exceed an amount greater than the retail purchase price of the product.

90 Days Parts & Labor

The Company warrants to you as the original retail purchaser of the Product, that should the Product have any warranted defect out of the packaging, under normal conditions, such defect(s) will be repaired or replaced with a new or refurbished part (at the Company's sole discretion) without charge, if the Product is submitted to the Company within a period of ninety (90) calendar days from the date of purchase of the Product. The customer is responsible for transportation cost and insurance charges (if applicable) to the Company and must be able to document a clear proof of delivery to the Company as well as proof of registered receipt by the Company. It is the customer's responsibility to retain original packaging or provide like packaging in order to facilitate the warranty repair or replacement process. The Company will incur no liability whatsoever to provide packaging for warranty items. Should the product be damaged en route to the Company due to insufficient or improper packaging or improper transport, the warranty may be voided.

Warranty Information (Continued)

You must receive a return authorization number (RMA#) before sending the unit in for service. This warranty **only** applies to manufacturer defects, and the Product must be returned to the Company in its original condition.

1 Year Limited Parts

If determined to be covered under warranty, the one (1) year limited parts warranty gives the customer the option to return the Product to the Company for repair or replacement. The customer **will** be responsible for labor charges. This warranty does not cover any incidental or indirect costs incurred as a result of a defect in the Product, including any consequential, incidental or indirect damages.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
