

CDC-F1 15W产品说明书-出风口

尺寸: 280*100mm 单面印刷

材质: 157克铜版纸

User Manual

15W Fast Wireless Car Charger

Product Features

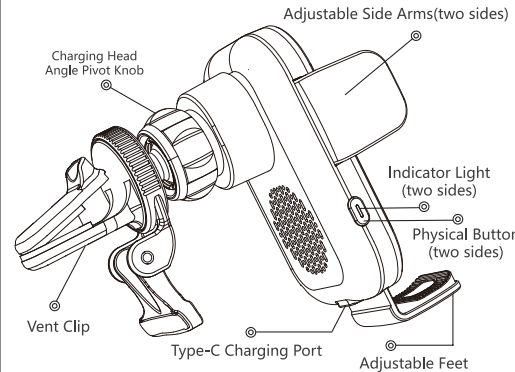

1. Physical button and LED indicator on both sides.
2. Built-in 2 coils and cooling fan, the two arms and feet will automatic closing when put the phone on the charger, it support wireless charging for Qi-enabled smartphones.
3. Adjustable feet suitable for different size phones, anti-slip silicone on both arms and feet, Type-C charging port.
4. Built-in stepper motor, it works with low noise.
5. NPO capacitors, lower charging temperature and high charging efficiency.
6. Standby mode: the green indicator lights on both sides keeps on.
7. Charging mode: the LED indicator lights on both sides keep blue, it turns green once remove the receiver.
8. FOD function: when put metal or magnet objects on the charger, the blue and green LED indicator light will flash for reminding.
9. Perfect protective function based on over-voltage, over-current, over-temperature and short-circuit protection.

Specifications

Input	DC5V/2A, 9V-3A
Output	15W/10W/7.5W/5W
Product Standard	Qi
Charging Distance	≤ 10mm
Charging Efficiency	≤ 80%
Product Dimension	φ72.5*73*109mm
Product Material	ABS+PC

※ Fast wireless charging requires quick 18W or 18W above adapter.

Product Parts Description

Product Operating Guide

1. Please make sure the product connect to the power before using.
2. The green LED indicator light on if connected with power.
3. The LED indicator light will flashes and the product stop charging when the current is too large or there is foreign object. Do not wireless charging the phone if similar situation happened.
4. Press the power button to open the two arms and place phone on the charger, then the phone will start wireless charging and the two arms locking automatically. Only need to press the power button to release two arms if you want to take out the phone.
5. Please purchase the wireless receiver module or case separately (Not included in the product) if your phone do not support wireless charging.

Attention

1. Please do not vigorously extrude or collide.
2. Please do not dismantle or put it into fire or water when the product is power on, to avoid short circuit or leakage.
3. Please do not use it in severely high temperature, high humidity or corrosive environment, to avoid damage to the circuit leakage.

5. Please do not put the metal (Such as coin etc.) on the charging pad when charging, to avoid damage from heating.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
