A photograph showing the disassembled components of a small electronic device, likely a portable music player, laid out on a blue surface. A ruler is placed vertically on the left side of the image for scale. The components include: a green printed circuit board (PCB) with a square cutout in the center; a black circular component, possibly a battery or a back cover; a small, clear, star-shaped component with red and black wires; a small, square, white component with red and black wires; a circular component with a burnt, orange-brown surface and exposed wires; and a black, square-shaped component with a circular opening in the center. The ruler shows measurements in both inches (top) and centimeters (bottom).
