front

Charging

- Full charge requires approximately 2-3 hours
- Charging is complete when solid white light turns on
- Plug micro end of charging cable into earbuds
- Plug USB end of charging cable into a DC 5V USB power supply

Troubleshooting and tips

- If the earbuds are not working correctly, turn them on/off to reset
- If the earbuds won't turn on, recharge the battery and try again
- If the earbuds won't charge, make sure the supply works, is 5V >1A, and not damaged
- If the earbuds make no sound adjust the volume
- If the earbuds make no sound or do not show as an available device, make sure they are not paired to another device, if so, unpair the device and re-pair the desired device
- This device does not have a pairing code. If prompted for one make sure you are connecting to the correct device. If you are, "forget" the device and re-pair. If you are still prompted enter 0000

NOTE:

The unit will power off after 2 minutes of no use.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
