

Model: 4005-012

Remote

Work voltage:12Vdc

Work current: $\leq 12\text{mA}$

Distance : 50-100M (wide space)

Frequency: 433.92MHz

Frequency tolerance: $\pm 0.2\text{MHz}$

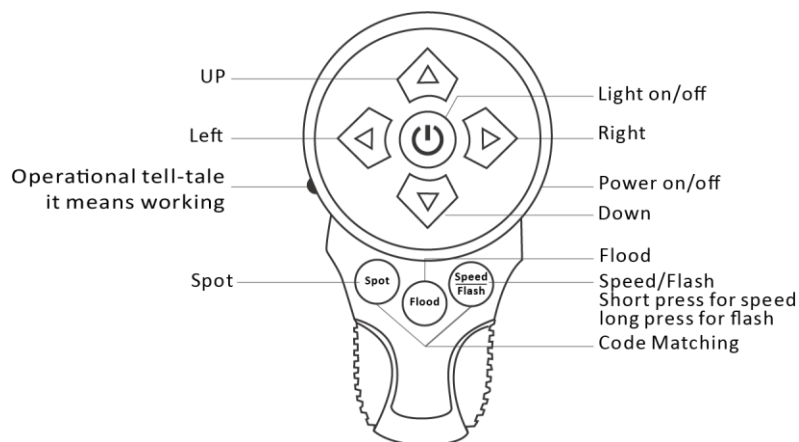

Material: plastic

Modulation: ASK (Amplitude Modulation)

Size: 118*64*35mm

Net weight: 80 grams

Applications: vehicle and ship lighting, vehicle and ship warning lamps, vehicle and ship horn and other lamps and other automotive electronics and consumer electronics and electrical control.

Only on condition that the light is connected to remote controller, it can be remote controlled.

On: Press to turn on the light

Off: Press again to turn off the lights and reset

Up: Head up

Down: Head down

Left : Turn left

Right: Turn right

Spot: Spot and short/long press can adjust the beam

Flood: Flood and short/long press can adjust the beam

Speed/Flash: Default the fast speed. Press one time to adjust the speed. Long press change to SOS

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful

interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
