

Operating with Imou App

About the Guide

- This quick start guide is for reference only. Minor difference might be found in user interface.
- All the design and software here are subject to change without prior written notice.
- All trademarks and registered trademarks mentioned are the properties of their respective owners.
- Please visit our website or contact your local service engineer for more information.
- If there is any uncertainty or controversy, please refer to our final explanation.

Step 1

Scan the following QR code or search "Imou" in Google Play or App Store to download and install Imou App.

Note: If you have installed the App, update it to the latest version.

Step 2

Run Imou App, and then register an account for the first use.

Step 3

Connect the camera to power source with the power adapter.

Step 4

Wait for booting to be finished, and then the camera indicator flashes with green light.

Step 5

Connect your smart phone to your Wi-Fi network, and make sure that your smart phone is connected to Wi-Fi network with 2.4 GHz band, and then do the following operations to finish adding camera.

- Note:**
- If you have more than one camera, do step 5 to add them one by one.
 - If the Wi-Fi network has changed or the indicator status goes wrong, reset the camera, and then do step 5 to add it again.

Installing Camera

Note: Make sure that the mounting surface is smooth and strong enough to hold at least three times of the device weight.

- Step1** Stick the mounting foam on the camera pedestal.
- Step2** Power up the camera.
- Step3** Adjust the monitoring angle as needed, and then attach the pedestal on the mounting surface, press and hold it for 10 s.
