- If there is any uncertainty or controversy, please refer to our final explanation.

## Operating with Imou Life App

### Step 1

Scan the following QR code or search “Imou Life” in Google Play or App Store to download and install the app.

**Note:** If you have installed the app, update it to the latest version.

### Step 2

Run Imou Life App, and then register an account for the first use.

### Step 3

Connect the camera to power source with the power adapter.

### Step 4

Wait for booting to be finished, and then the camera indicator flashes with green light.

### Step 5

Do the following operations to finish adding camera.

**Note:** If you have more than one camera, do step 5 to add them one by one.  
If the Wi-Fi network has changed or the indicator status goes wrong, reset the camera, and then do step 5 to add it again.

## Installing Camera

**Note:** Make sure that the mounting surface is strong enough to hold at least three times of the device weight.

- Step1** Drill screw holes on the mounting surface as the positioning map shows, and then put in the expansion bolts.
- Step2** Attach the pedestal to the mounting surface with the self-tapping screws.
- Step3** Power up the camera, and then adjust the lens to the ideal angle.

FCC Compliance Statement:  
This device complies with Part 15 of the FCC Rules.  
Operation is subject to the following two conditions:  
(1) this device may not cause harmful interference, and  
(2) this device must accept any interference received,  
including interference that may cause undesired operation.

Federal Communication Commission Interference Statement:  
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
—Reorient or relocate the receiving antenna.  
—Increase the separation between the equipment and receiver.  
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
—Consult the dealer or an experienced radio/TV technician for help.

### Camera Introduction

FCC Radiation Exposure Statement:  
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.  
RF Exposure: A distance of 20cm shall be maintained between the antenna and users, and the transmitter module may not be co-located with any other transmitter or antenna.

**Note:** Press and hold the reset button for 10 s to reset the camera.

The pattern of the LED indicator is included in the following table.

LED Indicator Status	Device Status
Off	<ul style="list-style-type: none"><li>Powered off/LED turned off</li><li>Rebooting after reset</li></ul>
Red light on	<ul style="list-style-type: none"><li>Booting</li><li>Device malfunction</li></ul>
Green light flashing	Waiting for network
Green light on	Operating properly
Red light flashing	Network connection failed
Green and red lights flashing alternately	Firmware updating
