Seesaw Wireless Earphones

Welcome to Card 21 Wireless Earphones!

In order to let you understand Card 21 more quickly , please read the following instructions carefully.

Product Diagram

The package box contains a charging case, a pair of wireless earphones and a charging cable

Operation

You can refer to this instruction to perform the following operations on the wireless earphone.

1. Turn on and Turn off

Turn on

Method 1: When the charging case has residual power, open the charging case earphone and it will turn on automatically;

Method 2: Long press the operation area for 2 seconds when the phone is turned off, and the earphone will turn on

When starting up, the white light will be on for 1 second and then off, and the voice prompt will be "Power on"

Turn off

Method 1: Put the earphone into the charging chamber and it will automatically shut down.

Method 2: When the terminal device is not connected, the earphone will automatically shut down after 3 minutes or long pressing the touch area for 6 seconds.

Indicator light: red light goes on for 2 seconds and then goes off

Voice reminder: before power off, voice prompt "Power off"

2. Pairing

Pairing includes the pairing between the left and right earphones, and the connection between the earphones and the terminal device.

Pairing between left and right earphones

The two earphones can be paired automatically after power on.

Indicator light before pairing: red light and white light flash alternately.

Indicator light after pairing: white light flashes, and voice will prompt with "Du" sound.

Connection to terminal equipment

- Bluetooth on the end device turned on
- After the earphone is turned on, search for the Bluetooth signal on the terminal device , select the corresponding earphone signal name, and then select Connect to pair with the terminal device.

Earphone indicator light: After pairing is complete, the indicator light goes out

After the earphone successfully completes a connection with the terminal device, the earphone will automatically find the terminal device that was successfully connected last time when it is used again, and try to connect with it.

3. Play music or audiobooks

Play / Pause

Double tap on any earbud to play or pause music

Indicator light: no prompt

Switch up and down

Previous song: Touch the touch area of the left earphone 3 times

Next song: Touch the touch area of the right earphone 3 times

Adjust the volume

Increase volume: Operate the touch area of the right earphone in the way of interval touch, each touch , the volume of the earphone will increase by 1 unit

Decrease the volume: Operate the touch area of the left earphone in the way of interval touch, each touch , the volume of the earphone will increase by 1 unit

Voice assistant on/off

Turn on the voice assistant: touch any earphone touch area 4 times

Turn off the voice assistant: touch the touch area of any earphone twice

When using the voice assistant, the indicator light has no prompt, and the prompt sound comes from the terminal device

4. Calls

answering call

Touch any earphone touch area once.

Indicator light: When there is an incoming call, the white light flashes quickly, and goes off after the call is connected

The prompt tone comes from the terminal device

End call

Touch any earphone touch area twice

When the call ends, there is no indicator light, and the voice prompt is "Du"
