Precautions

1. Listen with the volume setting as low as possible. Listening at high volume for an extended period may result in permanent damage to your hearing.
2. Keep your earphones and accessories out of reach of children. Children should use the earphones only under adult supervision.
3. Do not expose the earphones to water for a prolonged period. Do not use it when swimming, diving, or in the shower.
4. Using your earphones in a moist or dusty environment, or near a strong magnetic field, may result in an internal circuit failure.
5. Do not store your earphones in an environment where the temperature is below -15°C or above $+50^{\circ}\text{C}$.
6. Do not charge the earphones and the charging case in an environment where the temperature is below 0°C .
7. Do not expose your earphones or charging case to direct sunlight (such as on a window sill or on a car dashboard) for an extended period of time.
8. To avoid damage to your earphones, do not disassemble or tamper with them , and do not insert any foreign matter into them.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference,

and;(2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes expressly or modifications not approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment .

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
