Solder Board-Component View 7	 A photograph of a green printed circuit board (PCB) populated with various electronic components. The board is oriented vertically and is placed on a blue surface. A black L-shaped ruler is positioned around the board, with the vertical ruler on the left and the horizontal ruler at the bottom. The vertical ruler has markings from 0 to 100 mm, and the horizontal ruler has markings from 0 to 100 mm. The PCB features several white connectors, a central black integrated circuit (IC), two large silver electrolytic capacitors, and a small blue component labeled 'MCU MODE'. A small white label with the number '75' is visible on the right side of the board.
Solder Board-Component View 8	 A photograph of a small blue component, likely a microcontroller unit (MCU), placed on a blue surface. A black L-shaped ruler is positioned around the component, with the vertical ruler on the left and the horizontal ruler at the bottom. The vertical ruler has markings from 0 to 100 mm, and the horizontal ruler has markings from 0 to 100 mm. The component has a white label with a QR code and some text, including 'WALTEK' and 'WTX20X03012462W'.
