Smart WiFi Strip Light Kit

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- In order to have a good experience of using the product, please keep at least 20 cm.

Features

- WiFi controller
- Full range of RGBWW available
- Voice and intelligent speaker control
- 5-100% stepless dimming
- Timer switch
- Remote controllable after connecting to internet
- Waterproof level IP65/IP67

Parameters

Item.NO	Colour	Input Voltage	Current
TYWFC4-41	W	12~24Vdc	Max.2A
TYWFC4-42	CCT	12~24Vdc	Max.2A
TYWFC4-43	RGB	12~24Vdc	Max.2A
TYWFC4-44	RGB+W	12~24Vdc	Max.2A
TYWFC4-45	RGB+CCT	12~24Vdc	Max.2A

Wiring diagram

Installation instructions

1. Use DC12/24V power supply.
2. Install the WIFI controller correctly. Use 3M tape to fix it.
3. Connect the light strip and use the matched waterproof male connector. Unfold the light strip before use to avoid damaged caused by overheating, and test whether the APP can control the light strip correctly and confirm that it is normal.
4. Confirm that the power supply, controller, and light strip are connected properly, and the waterproof ring and screw cap are tightened.

Product functions diagram

1:DC12-24V input connection port

2: Function buttons:
Switch on
Switch off
Long press for more than 5 seconds to reset

Atentions

1. Do not cover metal objects around the controller, for which will block the WIFI signal.
2. The working voltage of the power supply must be the same as the working voltage of the strip, such as DC12V and DC24V.
3. There must be no objects above the waterproof controller, power supply, and light strip.
4. Make sure the connection is correct before using the power.

Download APP

- 1: Search "Smart Life" from App store or Google play.

- 2: Scan the QR code from the label or user manual.

The APP is compatible with Android 4.0 and IOS 8.1 and higher version.

Log in / Register account number

Open the Smart Life APP, sign up for a new account or log in with an existing account.

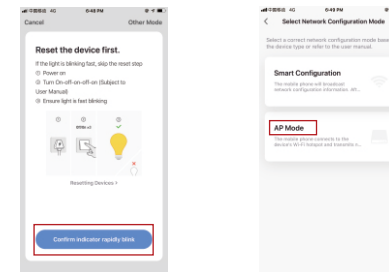

APP connection
