**For iPhone 15/14/13/12 series with MagSafe**

1. Connect the USB plug to car charger port and Type-C plug to your holder.  
 2. Connect the mobile phone with the wireless charger to charge. Note that you can know the charging status by the battery display on the phone screen.

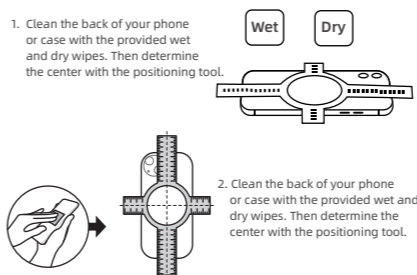

Charging Status Display:  
 P.S. Please kindly note the branding light is not indicator light.

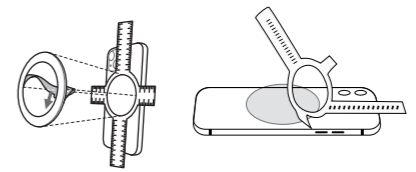

**For Use With Non-MagSafe Phones:**

1. Clean the back of your phone or case with the provided wet and dry wipes. Then determine the center with the positioning tool.

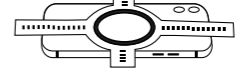

2. Clean the back of your phone or case with the provided wet and dry wipes. Then determine the center with the positioning tool.

3. Stick the protective film on the center before installing the metal ring. Attach the metal ring to the center, on top of the protective film.

NECESSARY: Stick the protective film on the center before installing the metal ring.

4. Attach the metal ring to the center, on top of the protective film.

**Attention:**

1. Use with the phone case will affect the magnetic attraction, you can stick the metal ring plate to the phone cases.  
 2. The Metal Ring needs to sit for 12-24 hours before use.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**CE FC**

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
 (1) this device may not cause harmful interference, and  
 (2) this device must accept any interference received, including interference that may cause undesired operation.

 This symbol indicates that this product shall not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment.
